Septic Tank Maintenance Reporting Form

Purpose

This form is offered to meet the reporting requirements of Minn. R. 7080.2450, subp. 2 and Minn. R. 7083.0770, subp. 2. The information on this form must be submitted to the homeowner within 30 days after the maintenance work is performed, and to the local government unit as required.

A copy of this information must be maintained by the Subsurface Septic Tank System (SSTS) business for a period of five (5) years from the maintenance date.

For systems installed under ordinances developed before February 4, 2008 (old Minn. R. 7080.0130); the maintenance hole covers:

1. Must be covered by a minimum of 12 inches of soil or be adequately secured.
2. Are not required to be brought up to ground surface. Covers can remain deep once the septic tank has been pumped.
3. Are recommended, but not required, to be brought slightly above the ground surface. If brought up to ground surface, the cover must be secured in accordance with the new rule (see part B).
4. Currently at ground surface are recommended, but not required, to be secured in accordance with the new rule (Part B), or at a minimum, secured to the satisfaction of the SSTS licensee and local government unit *if local regulations exist*.

For systems designed under ordinances adopted after February 4, 2008; the maintenance hole covers:

1. Must be brought to ground surface or slightly above.
2. Must be re-secured in accordance with the new requirements.
 - a) Cover must be locked, bolted or screwed or must be 95 pounds in weight.
 - b) Cover cannot be susceptible to being slid or flipped.
 - c) Cover must have a warning label.

Maintenance Company Information & Certification
