CENTERVILLE ROAD IMPROVEMENT PROJECT

DATE: June 27, 2018

SUBJECT: Centerville Road Construction Update #2
City Project No. 18-16
SAP 174-020-022 & SAP 062-659-018

Crews will begin installing traffic control and temporary lane striping on Centerville Road starting on Friday, June 27. The first phase of construction work will begin on the west side of Centerville Road starting on Monday, July 2nd, with curb and bike trail removals, followed by storm sewer installation. Access to the Cub Foods northern driveway from Centerville Road will be closed on July 5th (weather dependent) to complete storm sewer installation, but will be reopened to inbound traffic upon storm sewer completion. The bike trail will remain closed through this phase of work to facilitate a safe work zone.

Work on the first phase of the project (west side) is anticipated to take three weeks. Traffic on Centerville Road will be maintained in both directions with lane restrictions for the duration of the first phase of work.

The project is scheduled to be completed by the end of September, 2018. Periodic updates will be posted to the project website throughout the construction process.
