

2020 STREET RECONSTRUCTION PROJECT

TO: Residents in Project Area 20-06

FROM: Jayson Stejskal, Engineering Tech III

DATE: June 10, 2020

SUBJECT: **Concrete Curb, Sidewalk, Full Driveways, and Driveway Aprons on Bellaire Avenue**
City Project No.: 20-06

Weather permitting, installation of the concrete sidewalk, concrete driveways, concrete driveway aprons, and the remainder of the curb and gutter will begin on **Thursday, June 11th** on Bellaire Avenue. You will not be able to get in or out of your driveway until approximately 5 days following the concrete placement.

Affected residents should have any cars, trucks, boats, etc. that you will need for the next five days out of your driveway and garage. Please park these vehicles on the street outside of the construction zone.

- **After the concrete has been poured, you will NOT be able to use your driveway for five (5) days, or until the contractor has ramped your driveway with gravel.**
- **You WILL be able to park in the street during the evenings after 7:00 p.m.**
- **All vehicles parked on the street need to be moved to a side street away from the construction area at the beginning of each workday (7:00 a.m.).**

SAFETY REMINDER!! Due to heavy truck traffic and general construction activity, we would ask all parents to inform and make their children aware of the dangers of construction sites and to keep their children a safe distance from all construction areas. Your support and cooperation in assisting us to maintain a safe work zone and cautioning children about the dangers of construction sites will be appreciated.

If you have any questions, please contact our office at (651) 429-8531.
