

2018 STREET RECONSTRUCTION PROJECT

TO: Residents in Project Area 18-01
FROM: Nate Christensen, Project Engineering
DATE: June 5, 2018
SUBJECT: **Concrete Driveways and Sidewalk on 11th Street**
City Project No.: 18-01

Weather permitting, concrete driveway and sidewalk installation will take place Wednesday, June 6th on 11th Street. You will not be able to get in or out of your driveway from when driveway and/or sidewalk is placed approximately 5 days following the concrete placement.

Affected residents should have any cars, trucks, boats, etc. that you will need for the next five days out of your driveway and garage. Please park these vehicles on the street outside of the construction zone.

- **After the driveway and/or apron has been placed you will NOT be able to use your driveway for five (5) days after concrete is poured, or until the contractor has ramped your driveway with gravel.**
- **You WILL be able to park in the street during the evenings after 7:00 p.m.**
- **All vehicles parked on the street need to be moved to a side street away from the construction area at the beginning of each workday (7:00 a.m.).**

SAFETY REMINDER!! Due to heavy truck traffic and general construction activity, we would ask all parents to inform and make their children aware of the dangers of construction sites and to keep their children a safe distance from all construction areas. Your support and cooperation in assisting us to maintain a safe work zone and cautioning children about the dangers of construction sites will be appreciated.

If you have any questions, please contact our office at (651) 429-8531.
