DATE: June 17, 2022

SUBJECT: Concrete Driveways
City Project No. 22-01

Weather pending, concrete driveway placement will begin on Monday, June 20th. You will not be able to get in or out of your driveway from when the driveway is prepped until approximately 5 days following the concrete placement.

Affected residents should have any cars, trucks, boats, etc. that you will need for the next five days out of your driveway and garage.

- **After the driveway and/or end has been placed you will NOT be able to use your driveway for five (5) days after concrete is poured, or until the contractor has ramped your driveway with gravel.**
- **If your street has already been paved, you WILL be able to park in the street during the day in front of your house.**
- **If your street is still gravel, all vehicles parked on the street need to be moved to a side street away from the construction area at the beginning of each workday (7:00 a.m.) and can return in the evening after 7:00 p.m.**

SAFETY REMINDER!! Due to heavy truck traffic and general construction activity, we would ask all parents to inform and make their children aware of the dangers of construction sites and to keep their children a safe distance from all construction areas. Your support and cooperation in assisting us to maintain a safe work zone and cautioning children about the dangers of construction sites will be appreciated.

If you have any questions, please contact our office at (651) 429-8531.
