TO: Residents on Eugene Street (west of 4th Avenue to dead end)

FROM: Dan Holzemer, Senior Engineering Technician

DATE: May 5, 2022

SUBJECT: **Driveway End Removal**
City Project No. 22-01

The contractor will begin driveway end removal on Friday, May 6th on Eugene Street (west of 4th Avenue to dead end). After removal, your driveway end will be filled with a gravel to ensure continued access to your driveway. As will be the case during the entire construction season, work schedules are dependent upon weather. Watch future construction newsletters for further information.

In order to complete the construction project in the most efficient manner, it is important that the Contractor have as few obstructions as possible. As a friendly reminder, please **DO NOT park your vehicles on any of the streets under construction during working hours (7AM to 9PM or until work ceases for the day)**. If a vehicle is on the street in the construction zone during working hours and is impeding the construction, the Engineering Department may take further action and tow the vehicle. There will be times when you may not have access to your driveway. If you need access, please park on a side street during this time.

Please contact our office at 651-429-8531 with any questions.

Thank you for your patience and understanding.
