

WHITE BEAR LAKE *a City of Lakes & Legends*
MINNESOTA

2018 MILL & OVERLAY PROJECT

TO: Residents on Sumac Circle, Sumac Ridge, Manitou Drive and Manitou Lane
FROM: Jayson Stejskal
DATE: May 11, 2018
SUBJECT: Road Closures
City Project No.: 18-13

Weather permitting, a concrete valley gutter will be poured on Monday, May 14th across west end of Sumac Circle at Sumac Ridge. A concrete valley gutter will also be poured across Manitou Lane at Manitou Drive. This is to ensure that stormwater continues to flow downstream on County Road D and Bellaire Avenue. This concrete will need 5 days to cure before it can be driven across. Therefore, the west end of Sumac Circle at Sumac Ridge and south end of Manitou Lane at Manitou Drive will be closed until **Monday, May 21st**. Residents will be able to access this block via Sumac Ridge until the new concrete is cured. Barricades will be placed on both sides of this valley gutter to protect it. Please do not attempt to drive across this gutter until it is cured as it will damage the concrete and may cause damage to your vehicle.

If you have any questions now or throughout the project or have special needs, please call the City's Engineering Department at 651-429-8531 or email our office at cvermeersch@whitebearlake.org. Thank you for your cooperation.
