

WHITE BEAR LAKE *a City of Lakes & Legends*
MINNESOTA

2020 MILL & OVERLAY PROJECT

TO: Residents in Project 20-13
(Dillon Street, Woodcrest Road, and 5th Street)

FROM: Dan Holzemer, Senior Engineering Technician

DATE: July 28, 2020

SUBJECT: Paving
City Project No.: 20-13

Weather permitting, North Valley Paving Inc. will begin paving the streets listed above on **Wednesday, July 29th**.

Please be aware that you will not be able to park on your streets from **7:00 am until 7:00 pm and during that time, you may have limited access to your driveways**. Please ensure that you have all vehicles that you will need access to on a side street during these hours. We apologize for any inconvenience.

You will not be able to drive on the paved portion of the road for at least two hours or until they have finished rolling the newly paved roads. WE ASK THAT YOU TAKE EXTREME CARE NOT TO MAKE SHARP TURNS ON THE NEW BITUMINOUS PAVEMENT. Please note that prior to paving, oil will be sprayed onto the milled surface. It is in your best interest to avoid driving or walking through the oil sprayed areas as it may damage the under-side of vehicles and **it will track**.

- **WARNING**

New asphalt is very hot (**approximately 300°F**) when placed. Parents should keep children and pets from walking or riding bikes on the new pavement until it cools. Please talk to your children and explain about the paving and that they should stay a safe distance from the construction equipment.

- **SAFETY**

Due to the heavy traffic and general construction activity, we ask all parents to inform and make their children aware of the dangers of the construction sites. Please keep children a safe distance from all construction areas.

If you have any special requests, please contact our office at 651-429-8531 or direct any project-related questions to City staff on site.
