MINNESOTA

## 2018 STREET RECONSTRUCTION PROJECT

**TO:** Residents in Project Areas 17-06 and 18-01  
**FROM:** Jesse Farrell  
**DATE:** June 22, 2018  
**SUBJECT: Construction Update**  
**City Project Nos.: 17-06 and 18-01**

---

For **Project Area 18-01**, aggregate base was started on 10<sup>th</sup> Street and Morehead. Storm sewer and treatment systems were installed on 8<sup>th</sup> Street, 9<sup>th</sup> Street and Morehead. Utility work is about 2 weeks from completion.

Next week, utility and street work will continue on Morehead Avenue, 8<sup>th</sup>, 9<sup>th</sup> and 10<sup>th</sup> Streets and in the alleys.

Xcel Gas and Electric are getting close to completion. Next week we should have an idea of when they'll be completely finished.

Please advise visitors that the neighborhood is an active work zone and to use caution while walking or driving through the site

For **Project Area 17-06** (Old White Bear Avenue), paving of driveways and the trail will take place on Saturday June 23. By tomorrow afternoon, the City will have a continuous off-road trail from Highway 96 (Mn/DOT) all the way to South Shore Boulevard (Ramsey County). The first segment of the trail was built along with the Chateauguay condominiums in 1985.

If you need special assistance, please contact our office at 651-429-8531 and we will do our best to accommodate your needs. Thank you for your patience!

Workers place a new storm water treatment system beneath 8<sup>th</sup> Street.

Morehead Avenue looking south from 10<sup>th</sup> Street. The street base was cut down earlier in the week and built back up on Friday using specifically sized gravel aggregate.
