

2019 STREET RECONSTRUCTION PROJECT

TO: Residents in Project Area 19-06
FROM: Nate Christensen, Civil Engineer
DATE: July 31, 2019
SUBJECT: **Concrete Driveways**
City Project No.: 19-06

Weather permitting, concrete driveway placement will occur on **Thursday, August 1st** for all of Garden Lane. You will not be able to get in or out of your driveway from when the concrete driveway is placed until the contractor has ramped your driveway with gravel, which is approximately 5 days following the concrete placement.

Affected residents should already have any cars, trucks, boats, etc. that you will need for the next five days out of your driveway and garage. Please continue to park these vehicles on a street outside of the construction zone.

- **After the concrete has been placed you will NOT be able to use your driveway for five (5) days and until the contractor has ramped your driveway with gravel.**
- **You WILL be able to park in the street during the evenings after 7:00 p.m., taking extreme care not to hit the newly placed curb.**
- **Also, as a safety precaution, please make sure vehicles are not parked on both sides of the street directly across from each other, as the street would be too narrow for emergency vehicles to get through.**
- **All vehicles parked on the street need to be moved to a side street away from the construction area at the beginning of each workday (7:00 a.m.).**

SAFETY REMINDER!! Due to heavy truck traffic and general construction activity, we would ask all parents to inform and make their children aware of the dangers of construction sites and to keep their children a safe distance from all construction areas. Your support and cooperation in assisting us to maintain a safe work zone and cautioning children about the dangers of construction sites will be appreciated.

If you have any questions, please contact our office at (651) 429-8531.
