

2020 MILL & OVERLAY PROJECT

TO: Residents at 1809, 1875, 1893, and 1939 Elm Street
FROM: Dan Holzemer, Senior Engineering Technician
DATE: September 18, 2020
SUBJECT: Concrete Driveway Installation
City Project No.: 20-13

Weather permitting, the contractor will begin removing defective concrete sidewalks/driveways on Monday morning (September 21st). Please have all vehicles out of your garage and driveway before Monday, September 21st at 7 a.m. It is anticipated that Concrete Sidewalk and Concrete Driveways along **Elm Street**, will be placed starting on Wednesday, September 23rd. You will not be able to get in or out of your driveway from when the sidewalk and driveway are placed for approximately 5 days following the concrete placement.

Affected residents should have any cars, trucks, boats, etc. that you will need for the next five days out of your driveway and garage. Please park these vehicles on the street outside of the construction zone.

- **After the sidewalk and apron has been placed you will NOT be able to use your driveway for five (5) days after concrete is poured, or until the contractor has ramped your driveway with gravel.**
- **You WILL be able to park in the street during the evenings after 7:00 p.m.**
- **All vehicles parked on the street need to be moved to a side street away from the construction area at the beginning of each workday (7:00 a.m.).**

SAFETY REMINDER!! Due to heavy truck traffic and general construction activity, we would ask all parents to inform and make their children aware of the dangers of construction sites and to keep their children a safe distance from all construction areas. Your support and cooperation in assisting us to maintain a safe work zone and cautioning children about the dangers of construction sites will be appreciated.

If you have any questions, please contact our office at (651) 429-8531.
