

WHITE BEAR LAKE *a City of Lakes & Legends*
MINNESOTA

2019 MILL & OVERLAY PROJECT

TO: Residents in Chicago Avenue, Morehead Avenue, Stewart Avenue Neighborhood
FROM: Jay Stejskal, Engineering Technician III
DATE: May 23, 2019
SUBJECT: Pre Construction Update
City Project No.: 19-13

Construction will begin next week in the Chicago Avenue, Morehead Avenue and Stewart Avenue neighborhood.

Beginning next week, the Contractor will begin spot removal and replacement of sections of curb. Before next week, please move and/or remove anything of value that is within 10 to 15 feet of the curb and the alley. The sections of curb and gutter that are replaced will need 5 day to cure before additional construction activity will occur. Please pay special attention to the flyers that are distributed in advance of these operations. **Do not** drive your vehicle over concrete that is less than 5 days old.

If everything goes as planned, the week of June 10th the milling machine arrives and the top 2 inches of pavement will be milled (grinded) and removed.

All timelines are subject to change due to weather conditions.

Please keep our office posted with your questions and concerns!
