

WHITE BEAR LAKE *a City of Lakes & Legends*
MINNESOTA

2018 STREET RECONSTRUCTION PROJECT

TO: Residents in Project Areas 17-06 and 18-01
FROM: Jesse Farrell
DATE: May 11, 2018
SUBJECT: Construction Update
City Project Nos.: 17-06 and 18-01

The utility companies and our contractor continue to make excellent progress. Thank you for your patience during this project.

Pavement removal on Old White Bear Avenue is complete. Starting Monday, May 14th utility contractors will begin placing forcemain sewer down the center of the roadway. By the end of the week, storm sewer installation will also have begun. If the schedule continues to hold, substantial construction will be complete prior to the 4th of July.

Pavement removal on Johnson Avenue between 7th and 10th Street will commence on Monday, May 14th. Depending on the progress, pavement removal will also take place in additional areas that have not yet been impacted by construction. As a reminder, please remove items from the right-of way or they might be damaged by construction activities.

Utility work on 11th Street will be especially intense the week of May 14th-18th. Access will be limited, please avoid this area entirely if possible. Affected residents should have any cars, trucks, boats, etc. that they will need between 7:00 a.m. and 9:00 p.m. out of their driveway and garage. Please park these vehicles outside the construction zone. Once work has ceased for the day, access to driveways on 11th Street will be restored.

If you need special assistance, please contact our office at 651-429-8531 and we will do our best to accommodate these needs.
