

2020 STREET RECONSTRUCTION PROJECT

TO: Residents in Project Area 20-06
FROM: Nate Christensen, Civil Engineer
DATE: May 15, 2020
SUBJECT: Construction Update
City Project No.: 20-06

It has been almost three weeks since construction began on the City's 2020 Street Reconstruction project. Our contractor is off to a great start.

Pavement removal is complete. The contractor was able to grind the old pavement into gravel using a reclaiming machine, which decreases the amount of gravel hauled in from offsite.

Utility work and grading operations are also complete. Grading the road involved cutting out material to make room for the gravel road base. During this process, the end of your driveway may have been removed. Eventually all driveway ends will be removed and will be replaced during a later phase of the project.

Curb and gutter installation is scheduled to begin Monday, May 18th. Affected residents should have any cars, trucks, boats, etc. that they will need between 7:00 a.m. and 9:00 p.m. out of their driveway and garage. Please park these vehicles outside the construction zone.

All timelines are subject to change due to weather conditions. If you have any questions or special requests, please contact our office at 651-429-8531.

****Check your door for notices****

Residents should check their doors daily for specific information regarding work occurring in the vicinity of their home (printed on brightly colored paper). If a construction notice is put in your front door, the construction activity affects your property specifically. **All notices** are emailed to the e-mail distribution list. Please read the e-mail notice carefully to determine if it applies to your property specifically.

****Garbage and Recycling****

Your garbage and recycling will be picked up as scheduled. Please continue to have your garbage and recycling curbside by 6:00 AM on your regularly scheduled pickup day. If the construction is too heavy in your neighborhood on your regularly scheduled pick-up day, Republic will come back the following day to pick up your garbage and recycling. Please report any missed pickups to: Utility Billing Clerk at (651) 429-8565.

Reclaimer grinding the old asphalt.

Storm sewer installation
