

## 2018 STREET RECONSTRUCTION PROJECT

**TO:** Residents in Project Areas 17-06 and 18-01  
**FROM:** Jesse Farrell  
**DATE:** May 18, 2018  
**SUBJECT: Construction Update**  
**City Project Nos.: 17-06 and 18-01**

---

Forest Lake Contracting continues to make excellent progress.

For **Project Area 18-01**, utility work performed includes storm sewer, water and sanitary sewer services, and watermain placed on 9<sup>th</sup> Street. Now that utility work is substantially complete, concrete curb and gutter can be scheduled.

Curb and gutter installation is scheduled for Tuesday and Wednesday next week on 10th Street, 11th Street, Morehead Avenue (north of 11th Street) and the alleys north of 10th Street. Please pay special attention the flyers that are distributed in advance of these operations. Do not drive your vehicle over concrete that is less than 5 days old.

The remaining areas of this project are focused on pavement removal followed by utility work including exposing water services, sanitary sewer service repairs and watermain installation.

For **Project Area 17-06** (Old White Bear Avenue), installation of a new forcemain for sanitary sewage was installed this past week. The new forcemain will be put in service next week. The switchover process must take place in the middle of the night, when few residents are utilizing the sewers. **The plan is to start this work on Tuesday May 22<sup>nd</sup> at around 9pm. It will be a noisy overnight operation that will hopefully be complete by 4am.** Additional information will be distributed to residents of Old White Bear Avenue and Cottage Park on Monday afternoon when the schedule is finalized.

If you need special assistance, please contact our office at 651-429-8531 and we will do our best to accommodate these needs. Thank you for your patience!

Workers use a backhoe to carefully place the concrete manhole. This manhole will allow personnel to access and operate the new sanitary sewer forcemain.

A closer look at the inside of the access manhole. This forcemain will provide service to most of the homes in the southern half of the City!
