

2019 MILL & OVERLAY PROJECT

TO: Residents in Project Area 19-13
(Stewart Avenue, Chicago Avenue and Morehead Avenue)

FROM: Jayson Stejskal, Engineering Technician III

DATE: May 30, 2019

SUBJECT: Paving
City Project No.: 19-13

Weather permitting, Forest Lake Contracting will begin paving the first lift of bituminous on the alley on **Friday, May 31st.**

You can park on Stewart Avenue, Chicago Avenue and Morehead Avenue. Please park your vehicles on **only one side** of the street. Also, **do not** park near any white markings on the street. They will also be milling and repaving those areas marked in white. We apologize for any inconvenience.

You will not be able to drive on the paved portion of the road for at least two hours or until they have finished rolling the newly paved roads. WE ASK THAT YOU TAKE EXTREME CARE NOT TO MAKE SHARP TURNS ON THE NEW BITUMINOUS PAVEMENT.

- **WARNING**

New asphalt is very hot (**approximately 300°F**) when placed. Parents should keep children and pets from walking or riding bikes on the new pavement until it cools. Please talk to your children and explain about the paving and that they should stay a safe distance from the construction equipment.

- **SAFETY**

Due to the heavy traffic and general construction activity, we ask all parents to inform and make their children aware of the dangers of the construction sites. Please keep children a safe distance from all construction areas.

If you have any special requests, please contact our office at 651-429-8531 or direct any project-related questions to City staff on site.
