651-645-6470

**Help yourself,
Help your friends,
Help your neighbors.**

“Typical household grant averages \$1,000”

Nearly all Minnesota households spend a greater share of their income on energy costs. For families, households with limited income, or seniors living on a fixed income this can be especially stressful.

Community Action’s Energy Assistance Program helps thousands of families in Ramsey and Washington counties pay energy & water bills and can improve the efficiency of their homes.
