White Bear Lake....The City of Lakes and Legends

Historical Beginnings

The earliest inhabitants of the White Bear Lake area were the Dakota and Ojibwa Indians who used it for their migratory hunting and harvesting grounds. The United States government designated the area as Dakota land in an 1825 treaty, but later purchased all Dakota Territory east of the Mississippi to open it for European-American settlement.

Rich land, abundant game, and scenic lakes attracted the early pioneers to this area. In 1858, the year Minnesota became a state, these first European-American settlers established White Bear Township, which consisted of 36 square miles of land. As work of its scenic landscape spread, the town grew into a popular resort area, attracting visitors from all along the Mississippi River. People would travel up the Mississippi by steamboat and then to White Bear Lake by train. Soon resorts and hotels lined the shores of the lake while restaurants, theaters and stores set up shop in the downtown to accommodate visitors. The extension of the Lake Superior and the Mississippi Railroad to White Bear Lake in 1868 turned what used to be a three-hour buggy ride from S. Paul into a twenty-minute trip. Rail service provided new and exciting opportunities for business and industry in the area, eventually connecting to Duluth in 1871.

As the resort era faded shortly after the turn of the century, other industries, including farming and lumbering, continued to prosper. In keeping pace with this steady growth and development, leaders of the community officially incorporated the City of White Bear Lake in 1921. At that time, the city was 2 ¼ square miles with a population of just over 2,000. The 1950's and 1960's were times of rapid residential expansion. By 1960, the city's area had grown to 7 square miles with a population of about 13,000 people. During the 1970's and 1980's, large parcels of land opened for development through the city's effort to extend roads and utilities. The city's aggressive economic development program led to extensive growth in its tax base and employment levels. Several nationally known companies have moved into the area while downtown redevelopment efforts continue to make great strides in expanding. Over the years, the White Bear Lake area has continued to grow and prosper. Today the city's 24,000 residents enjoy the advantages of being part of a major metropolitan area while residing in a community that has maintained its small hometown appeal.

Legend of White Bear Lake

The legend of White Bear Lake is one of forbidden love and courage. Like all folklore, some parts of the story may be true; however, all of it is interesting and captivating. It seems that every spring, people from the Dakota Indian tribe visited the island in the middle of White Bear Lake to make maple sugar. Tradition says that on the island, now called Manitou Island, an Indian princess and an Indian brave fell in love. They could not marry since the princess' father, the chief, thought the young brave cowardly. One night, the young lovers met secretly and sat amount the branches of a large elm tree that hung far over the lake. As they sat there, a large albino bear, thinking perhaps, that polar snows and dismal winter weather extended everywhere, took up his journey southward. He approached the northern shore of the lake, walked down the bank and made his way noiselessly through the deep, heavy snow toward the island. As the princess and the brave were returning to camp in time to avoid suspicion, the bear leaped out and attacked the princess. The princess screamed for help. Bounding toward the young brave, she caught his blanket and fell, bearing the blanket with her into the great arms of the ferocious monster. Upon hearing the screams, every man, woman and child of the tribe ran to the bank to see the commotion, however, all were unarmed and could not save the princess. While the savage beast held the breathless woman in his huge grasp, the brave sprang to his feet, dashed to his wigwam for his knife and returned almost in a single bound. Springing with the fury of a mad panther, he pounced on his prey and killed him. The Indian Chief allowed the brave and the maiden to marry, and for many years their children played upon the skin of the white bear from which the lake derives its name.

April 21, 2021

White Bear Lake Residents, Honorable Mayor and
Members of the City Council
City of White Bear Lake, Minnesota

In accordance with Minnesota State Statutes and White Bear Lake City Charter provisions, we respectfully submit the Comprehensive Annual Financial Report of the City of White Bear Lake as of December 31, 2020 and for the year then ended. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation including all disclosures supporting schedules, and statistical tables rests with the City. Your management staff believes that the information as presented herein is accurate in all material aspects, that it is presented in a manner designed to fairly set forth the financial position and results of City operations as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

The report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management has established internal controls designed to protect the City's assets from loss, theft, and for the preparation of these financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's internal controls have been designed to provide reasonable rather than absolute assurance that, the financial statements will be free from material misstatements. As management, to the best of our knowledge and belief the financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Abdo, Eick & Meyers, LLP, Certified Public Accountants appointed by the City Council. The independent audit is conducted to provide reasonable assurance that the financial statements of the City for the year ended December 31, 2020 are free of material misstatement.

The independent audit involved examining evidence on a test basis to support both the amounts and disclosures in the financial statements; assessing the accounting principles and significant estimates used by management; and evaluating the overall financial statement presentation. Based upon the audit, the independent auditor rendered an unmodified or "clean" opinion that the City's financial statements, for the year ended December 31, 2020, are presented in conformity with GAAP.

The independent auditor's report is presented as the first component of the financial section of this report.

This transmittal letter is designed to complement the Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The MD&A can be found immediately following the independent auditor's report.

THE REPORTING ENTITY AND ITS SERVICE

In accordance with GASB pronouncements, the City's financial statements include all funds and account groups of the City of White Bear Lake, as well as all component units.

The City provides a full range of municipal services to its citizens. These services include, but are not limited to general administration; planning; building and code enforcement; police and fire protection; construction and maintenance of streets; parks and recreational facilities; surface water pollution prevention; economic development; water and sanitary sewer utilities; refuse collection and disposal; ambulance service, and deputy registrar services.

The White Bear Lake Housing and Redevelopment Authority (HRA) is considered a blended component unit of the City. Although the HRA is a legally separate unit, it was created by the City Council to carry out responsibilities associated with redevelopment within the City's tax increment districts. The HRA governing body consists of the five council members with the city manager serving as the executive director. The HRA financial statements are prepared in conjunction with the City's annual report and are included as a Capital Project Fund of the city. The HRA does not publish a separate financial statement.

PROFILE OF THE CITY

The City of White Bear Lake is a second-tier St. Paul suburban community within two counties. The majority of the City is in northeast Ramsey County; however, a small section of the southeast area lies within western Washington County. The City incorporates an area of approximately 10 square miles, with a 2019 final population of 25,752, according data from the Metropolitan Council. The City is approximately 12 miles from downtown St. Paul and 20 miles from the Minneapolis/St. Paul International Airport.

The City operates under the Council-Manager form of government through its home rule charter adopted in 1922. Policy-making and legislative authority are vested in the governing Council consisting of a Mayor and five council members.

The city charter presents the mayor as the chief executive officer of the City with the position responsible for the enforcement of provisions of the city charter and ordinances. The mayor does not have a vote on the council but does have veto authority over council actions. The council may reconsider any vetoed action at the next regular meeting and override the mayor's veto with a four-fifths vote of all members.

An at-large election occurs for the mayor position, which is a four-year term. The five council members are elected by wards and serve four-year staggered terms. The elections for mayor, wards two and four coincide with each other and two years later the elections for wards one, three and five coincide with each other. The council is elected on a non-partisan basis.

The council establishes policies, passes ordinances for municipal regulation, adopts the budget, appoints committee members, and hires both the city's manager and attorney. The city manager is responsible for executing the ordinances and policies of the city council, overseeing the day-to-day operations of the government, appointing department supervisors, recommending and enforcing the budget, and keeping the mayor and city council advised as to the financial needs and condition of the City.

The City utilizes a long-range financial management plan, a capital improvement plan and cash flow projection sheets to create the annual budget. The budget incorporates the data from these three sources into one overall document that aligns with the City's policies for operations, financial management, debt management, reserves, investments, and amendments. Budget preparations begin early each year with departments updating their capital improvement plans. This information flows into the financial management plan for discussion on funding for large-scale purchases and projects with the City Council each April. Each city department submits their operating budget requests to the finance department in July. These requests combine with projected revenue data and results from the financial management plan discussion to begin development of the budget. The city manager and finance director present a preliminary balanced budget to the council prior to September 15 each year. At that time, the council sets the preliminary tax levy. The adopted budget may utilize a levy lower than what is set; however, the levy may not increase above the preliminary tax levy set in September. The city council holds budget work sessions and a formal public hearing before adopting the final budget and tax levy before December 20. The city manager has expenditure discretion within expenditure categories; however, adjustments between departments or funds require a budget amendment adopted by the city council.

While events of 2020 presented many challenges, they also created opportunities to review our service delivery models, creatively adapt policies and practices to meet the needs of the community, incorporate flexibility into our internal processes and expand the technology used in daily operations. Many of the subsequent changes and improvements increased operational productivity within the organization. The city council and staff also remained nimble in its creation of grant and relief programs to support residents, businesses and community non-profits in a year of unprecedented economic challenges.

FACTORS AFFECTING FINANCIAL CONDITION

This report provides the reader with a clear understanding of the City's financial condition and data needed to conduct their analysis. However, the City's fiscal soundness is influenced by more than the results of its financial operations and balance sheet. The information presented in the financial statements is best understood when it is considered within the context of the external economic environment.

LOCAL ECONOMY

As part of the Minneapolis/St. Paul metropolitan area, the City is immersed in an economically diverse urban environment. Through the years, the metropolitan area has built a vibrant business base, including companies involved in manufacturing electronics, leading-edge medical technology, milling, machine and product manufacturing, food processing, banking, higher education and research, graphic arts and performing arts, and professional athletics. These businesses, and others, have helped make the Twin Cities area one of the largest commercial and cultural centers between Chicago and the West Coast. This economic diversity and the tourism/hospitality industry's comparatively smaller portion of the economy as a whole for the region has allowed the greater metropolitan area fare better than many other areas in the country during these difficult times.

White Bear Lake residents and businesses benefit from the following community assets: a highly educated work force; moderately priced housing; access to advanced technology; available capital and an excellent transportation system including two major state highways and two federal interstate highways, which allow easy mobility in any direction. This transportation network is a very positive factor in making White Bear Lake an ideal location for commercial/industrial development and redevelopment. In addition, the White Bear Lake area is considered a regional entertainment and tourist destination, with a quaint downtown shopping district, attractive outdoor recreation opportunities with the lake, bike trails and parks, a growing Arts District, and many community events throughout the year.

The community's approval of a referendum in 2019 to finance a \$326 million multi-year improvement plan for additions and renovations to the White Bear Lake Area School District buildings will make our community an even more attractive place to younger families and provide a renewed economic energy in downtown as we see more events at the new 9-12 grade high school located adjacent to the downtown.

The outbreak of COVID-19 in early 2020 led to the steepest economic downturn on record as state leaders instituted mandatory lockdowns and closed non-essential businesses in response to the pandemic. The City created grant programs to support local residents, businesses and non-profit organizations with demonstrated economic impact from COVID-19. In addition to the direct financial support, the City engaged a consultant to coordinate marketing and non-financial assistance to area businesses. “Regrow White Bear Lake” focused on sustaining the local economy and providing the public information on opportunities to support local businesses and restaurants in our community, offering resources and training to small businesses in the area to help them survive and thrive, and planning family-friendly contests and activities benefiting the local businesses. The City also collaborated with other community stakeholders such as the White Bear Lake Economic Development Corporation, White Bear Area Chamber of Commerce, White Bear Lake Main Street Inc, and the Explore White Bear group to communicate with local businesses about federal, state and regional programs such as the relief grants and the Paycheck Protection Program. The creative efforts and community outpouring sustained the small businesses through the difficult times.

With shifts in business service models and a growing understanding of the COVID-19 virus, the economic predictions improved in late 2020. At that time, market analysts predicted economic growth at 2.8% in 2021; however, recent predictions anticipate the growth for 2021 and 2022 to be higher. If the growth level remains at the higher level through 2021, the economy would be back to the pre-pandemic trend in 2022. This message is consistent with communications from the Federal Reserve that indicate an expectation of faster economic growth in 2021 that will drive unemployment down and prices up as economic activities deferred during the pandemic resume and consumer spending increases.

According to the Bureau of Labor Statistics, the unemployment rate within the community spiked to 10.4% in May 2020 and finished the year at 4.5% in December 2020. Though this is higher than most months in 2018 and 2019, the rate is close to the January 2019 statistic of 4.0%. The diverse labor market within the Minneapolis/St. Paul metropolitan area, which includes White Bear Lake, outperformed the nation as a whole, which recorded an unemployment rate high of 14.8% in April 2020 and 6.7% as of December 2020.

Though lower than the 2019 levels, the 2020 residential and commercial/industrial construction and redevelopment activity remained steady through the mandatory shutdown periods.

	2019	2020
Total permits	2,687	2,599
Total permit valuations all types	\$ 65,328,427	\$ 54,730,496
Total new construction activities only	\$ 37,575,730	\$ 11,140,000

The City anticipates 2021 construction activity to return to the 2019 levels based on planned construction projects and the multi-year improvement plan for additions and renovations to the White Bear Lake Area School District buildings.

The County Assessor's valuation of the median value home within the community increased 5.3% to \$256,000 in the 2020. The housing market remained extremely competitive during 2020 with homes selling quickly when placed on the market causing a low inventory of available homes for sale in the community. Per the Minneapolis Area Realtors Association, September 2020 was the last time the City had more than a month's supply of for sale housing available. The group considers a 5 month supply of available housing to be a balanced market. As of February 2021, the rolling 12 month period median home sales price in White Bear Lake was \$285,000.

REDEVELOPMENT ACTIVITIES

While the City Council understands the importance to maintaining the City's tax base, economic stability, and providing employment opportunities through the promotion of its commercial and industrial sectors, a strong residential housing market is equally important to the City's economic and social vitality. During 2019, the City invested in a comprehensive market assessment to gain an understanding of the opportunities, challenges and demographic trend impacting housing needs. Results show that in the next 10 years, the City will experience population and household growth, but with a decreasing average household size, the household growth will be exponentially higher. A lack of supply and a robust demand in White Bear Lake (and the Twin cities in general) is causing both owner and renter occupied housing costs to increase. Since a post-recession low in 2011, the median home sale price has increased 72% as of September 2019 and from the 2nd Quarter 2018 to the 2nd Quarter 2019 rent prices increased 7%. Information gained through the assessment will assist the council in making decisions that influence housing regulations, ordinances and other homebuyer programs. The City delayed their planned 2020 work analyzing the housing data with the newly created housing task force until 2021 due to challenges created by the pandemic.

Construction of a 189-unit market-rate apartment complex at the northwest corner of County Road E and Linden Avenue commenced in the fall of 2019, with occupation planned in 2021. The City anticipates an application from the same developer to construct workforce housing immediately west of this site as part of its total 10-acre redevelopment project.

In the summer of 2019, the City purchased four parcels of land located north of the current Public Works facility. The City subsequently sold half of the land in the spring of 2020 to Saputo, Inc., a dairy company located next to the parcels of land. The City's site is providing storage for material and equipment previously stored at the former Public Works facility, with the eventual intent to prepare the former facility for future redevelopment. Saputo has not yet indicated definitive plans for its newly obtained property.

The downtown area remains active with minimal vacancies, year-round occupancies and considerable investment in building façade improvements. Renovation to a historic building on Washington Avenue in 2019 created a two-story, full-service restaurant. This business expanded both inside capacity and a rooftop bar area in 2020. Restoration of another historic building at the corner of Third Street and Clark Avenue in downtown is creating unique office spaces for local small businesses.

FUTURE DEVELOPMENT

The County Road E Corridor remains a primary focus of the White Bear Lake Economic Development Corporation as there are opportunities for redevelopment and intensification of key intersections, vacant or underutilized sites, and infill properties. The City was awarded funding through a Ramsey County Corridor Improvement Program to develop a comprehensive plan for revitalization of this corridor and plans to launch this work in the fall of 2021. The City's Revolving Loan and Grant Program expanded in 2018 to include County Road E area as an incentive for business improvements.

The Housing and Economic Competitiveness components of the 2040 Comprehensive Plan were incorporated into the City's comprehensive plan. Much of this work is expected to create new investment opportunities for White Bear Lake, generate new resources for homeowners and businesses, and help create an economic development plan to guide the community through 2040.

The future Rush Line transit corridor continues to spur market interest from residential developers along the planned transit area. The Metropolitan Council, the agency supporting the project, is working on the station area planning as the process moves toward the Rush Line transit opening in 2025. Staff anticipates continued interest in this Rush Line corridor along Highway 61 and the perimeter of Downtown White Bear Lake.

As previously mentioned, in November 2019, voters in the White Bear Lake Area School District approved a \$326 million building bond request to address building needs across the district. The multi-year improvement plan will include additions and renovations to current buildings. The plan is both complex and comprehensive as it touches each of the District's buildings in some way. Initial stages of the project began in late 2020 and will continue in 2021 and 2022.

LONG-TERM FINANCIAL PLANNING

As previously mentioned the City utilizes a Financial Management Plan and a Capital Improvement Program for long-term planning.

The Financial Management Plan allows the City to project expected revenues and expenditures over a 10-year period to help anticipate financial requirements in future years. Annual updates to the forecast include each year's final audit results, approved budget amounts, and updated capital improvement plan data. It only assumes known decisions and does not presume future decisions of the Council.

The Capital Improvement Plan provides 5-year information on major maintenance and replacement needs for all City structures, equipment, parks, and transportation projects. Staff will change this document to a 10-year plan in 2021 to align with the duration of the Financial Management Plan. Continuous replacement of the City's infrastructure is scheduled to occur at the rate of approximately two to three percent per year; matching the rate of need. Preliminary estimates anticipate annual street reconstruction and mill overlay costs in the range of \$3.4 - \$4.1 million over the next five-year period.

The City analyzes each capital budget through the Financial Management Plan to determine if sufficient resources are in place to meet future infrastructure improvements. General Fund balances in excess of requirements are allocated to Capital Construction budgets, specifically the Municipal Building and Interim Construction Funds.

FISCAL STEWARDSHIP

The City's Fiscal Policy provides that one-time revenue sources should fund capital improvements or non-recurring expenses rather than operations and that sufficient cash reserves be maintained to maintain operational efficiencies, thus avoiding any need for short-term borrowing to meet operational requirements.

The City's General Fund reserve for cash flow totals \$4,010,000 and represents approximately one-half of the City's projected property tax collection, local government aid, and police aid payments; significant operating revenue sources not received until the second half of the fiscal year.

The City's computations of its direct debt and its legal debt margin reports that it \$3,205,000 in debt obligation that has general property taxes as its sole source of revenue. The City has 97% of its legal debt limit, or \$90,293,804 available for debt bonding as of December 31, 2020.

The City has \$18,050,000 outstanding in Tax Increment, Special Assessment, and Tax Abatement debt as of December 31, 2020.

The City anticipates incurring debt obligation in 2021 for the financing of the 2021 street improvement projects, residential water meter replacement program, and capital equipment.

PENSION REPORTING

The City's Comprehensive Annual Financial Report dated December 31, 2020 incorporates GASB Statement No. 68 "Accounting and Financial Reporting for Pensions". The Statement requires the City to report a net pension liability of \$3,945,203. The City calculates this liability by comparing its share of the Statewide plan (PERA) of \$6,529,878 with its share of the local Fire Relief Association credit (over 100% funded) of \$2,584,675.

State Statues do not require any local governmental unit to be responsible for any state-wide pension funding deficit. The State legislature has previously utilized its state-wide funding resources to ensure local pensions be made sufficiently funded rather than requiring the local governmental unit to fund its pension deficits.

AWARDS FOR ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of White Bear Lake for its comprehensive annual financial report for the fiscal year ended December 31, 2019. This was the thirty-third consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement in Excellence Reporting, the City must publish an easily readable and effectively organized annual report. This report satisfies both the General Accepted Accounting Principal and legal requirements.

A Certificate of Achievement for Excellence in Financial Report is valid for a period of one year only. The City will submit the December 31, 2020 financial report to the Government Finance Officers Association to determine its eligibility for another certificate.

In addition, the government also received the Government Finance Officers Association’s Distinguished Budget Presentation Award for its annual budget document dated January 1, 2020, which represents the nineteenth consecutive year the City has received the award. In order to qualify for the Distinguished Budget Presentation Award, the government’s budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

ACKNOWLEDGMENTS

We would like to express our appreciation to all members of the finance department who assisted and contributed to the preparation of this report. Special recognition to Jessica Saari, Assistant Finance Director, who diligently prepared the audit work papers, developed the finance report, and the statistical section. Recognition is also extended to the mayor and city council for their responsible and progressive policies involving the City’s financial operations, along with their solidarity in placing long-range and infrastructure needs ahead of popular expenditures and careful consideration of staff recommendations.

Respectfully Submitted,

City Manager

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Council
City of White Bear Lake, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of White Bear Lake, Minnesota (the City), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis starting on page 33, the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget to Actual, the Schedules of Employer's Share of the Net Pension Liability, the Schedule of Changes in Net Pension Liability (Asset) and Related Ratios, the Schedules of Employer's Contributions and the Schedule of Funding Progress for Other Post-Employment Benefit Plan starting on page 118 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

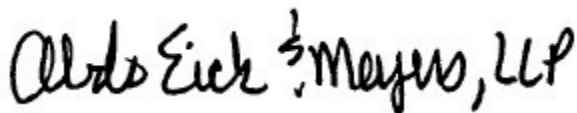

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section and combining and individual fund financial statements, schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 21, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF WHITE BEAR LAKE, MINNESOTA MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis presents an overview of the financial activities and financial position for the City of White Bear Lake for the year ended December 31, 2020. The discussion and analysis is intended to be read in conjunction with the transmittal letter in the Introductory Section, and the City's financial statements presented in this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$101,413,863 (net position). Of this amount, \$35,272,777 (unrestricted net position) may be used to meet the government's obligations to citizens and creditors according to City policy.
- At the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$30,114,382, an increase of \$2,332,377. Although expenditures exceeded revenues by \$1,241,008, the issuance of \$3,580,000 in bonds and transfers in of \$4,281,435 resulted in an increase in fund balance.
- At the end of the current fiscal year, the General Fund's unassigned fund balance totaled \$5,804,642. The General fund unassigned balance represents 52.5% of the total General Fund expenditures for the current fiscal year.
- The City's total debt increased by \$4,047,686 during the current fiscal year. The City issued 2020A G.O. Bonds for the financing of street construction, capital equipment acquisition, and construction of water system improvements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to provide an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of position presents information on all of the City's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, community development, public safety, public works, and parks and recreation. The business-type activities of the City include water, sewer, refuse, ambulance, license bureau, and Pioneer Manor, a senior apartment complex.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate White Bear Lake Housing and Redevelopment Authority (the Authority) for which the City is financially accountable. The Authority, although also legally separate, functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government.

The government-wide financial statements can be found on starting on page 45 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

GOVERNMENTAL FUNDS

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resource, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statement. By doing so, readers may better understand the long-term impact of the City's near term financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and change in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains seven individual major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Non-Bonded Debt Fund, Construction Fund, Municipal Building Fund, HRA Tax Increment Pool Fund, Economic Development Fund, and Community Reinvestment Fund, which are considered to be major funds.

Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund and six special revenue funds.

A budgetary comparison statement has been provided for those funds to demonstrate compliance with the adopted budget.

The basic governmental fund financial statements can be found on pages 54 through 61 of this report.

PROPRIETARY FUNDS

The City maintains two different types of proprietary funds, enterprise funds, and internal service funds. Enterprise funds are used to report any activity for which a fee is charged to external users for goods or services. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for Insurance and Employment Expense. Because these services predominantly benefit governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for Water, Sewer, Refuse, Ambulance, the License Bureau, and Pioneer Manor.

The basic proprietary fund financial statements can be found on pages 62 through 71 of this report.

FIDUCIARY FUNDS

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own program. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 72 and 73 of this report.

NOTES TO FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 75 through 116 of this report.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension and other postemployment benefits to its employees. Required supplementary information can be found starting on page 118 of this report. The combining statements referred to earlier in connection with nonmajor governmental funds and nonmajor proprietary funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found starting on page 136 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve as a useful indicator of the City's financial position over time. The City's assets exceeded liabilities by \$101,413,863 at the close of the most recent fiscal year.

Statements of Net Position (In Thousands)

	Governmental		Business type		Total	
	2020	2019	2020	2019	2020	2019
Current/Other Asset	\$ 44,592	\$ 41,228	\$ 6,559	\$ 5,434	\$ 51,151	\$ 46,662
Capital Assets	77,138	78,030	5,320	4,875	82,458	82,905
Total Assets	121,730	119,258	11,879	10,309	133,609	129,567
Deferred Outflows of resources	3,953	4,852	1,033	1,104	4,986	5,956
Long-term liabilities	27,805	23,245	3,029	1,681	30,834	24,926
Other liabilities	1,137	1,220	530	468	1,667	1,688
Total Liabilities	28,942	24,465	3,559	2,149	32,501	26,614
Deferred Inflows of resources	3,804	5,739	876	1,431	4,680	7,170
Net Position						
Net Investment in Capital assets	59,069	62,562	4,401	4,875	63,470	67,437
Restricted	2,671	1,847	-	-	2,671	1,847
Unrestricted	31,197	29,497	4,076	2,958	35,273	32,455
Total	\$ 92,937	\$ 93,906	\$ 8,477	\$ 7,833	\$ 101,414	\$ 101,739

By far, the largest portion of the City's net position (62.6 percent) is reflected in its investment in capital assets (e.g. land, buildings, machinery, and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets cannot themselves be utilized to liquidate these liabilities.

Restricted net position comprises 2.5 percent of total net position. These assets are subject to external restrictions on how they may be used. The restrictions are related to legal bond covenants and State Statutes. The remaining balance totals \$35,272,777, which represents 34.8 percent of the net position. At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Deferred outflows of resources decreased \$969,280 from 2019 as a result of changes in actuarial assumptions relating to the pension and OPEB plans. Deferred inflows of resources also decreased \$2,489,232 as a result of changes in actuarial assumptions relating to pension plans.

CHANGES IN NET POSITION

The City's net position totaled \$101,413,863 at December 31, 2020 compared to \$101,739,751 as of December 31, 2019. This represents a decrease of \$325,888 for fiscal year 2020. The decrease is attributable to an increase in expenses as compared to 2019 amounts combined with an decrease in revenues.

Governmental activities net investment in capital assets decreased \$3,493,189. Governmental net capital assets decreased by \$892,046, however the net investment in capital assets was decreased even further by depreciation expense. Another factor impacting governmental activities is the depreciation of streets and storm sewers (20-25 years).

Business-type net position increased \$643,657 or approximately 0.1 percent. This increase is mainly due to the increase in charges for services and operating grants and contributions exceeding the increase in expenses.

Statements of Changes in Net Position (In Thousands)

GOVERNMENTAL ACTIVITIES

The governmental activities decreased the City's net position by \$969,545 thereby accounting for the overall decrease in the net position of the City. Key elements of this decrease, as well as other highlights of the governmental activities, are as follows:

- Charges for services decreased by \$1,755,000 compared to 2019. A majority of this decrease is due to reimbursements received from other governments in 2019 for trail and seal coat projects, as well as a decrease in Sports Center revenue due to COVID-19 closures.
- Operating grants and contributions increased by \$1,763,000 from 2019 with the receipt of over \$1.9 million in COVID-19 relief funding from the federal government.
- Capital grants and contributions decreased by \$1,267,000 in 2020. The decrease was attributable to the closure of the Water Improvement Fund and the Sewer Improvement Fund in 2020, which were both governmental funds. All connection fee charges for water and sewer are now recorded in the Water Fund and Sewer Fund, which are business-type funds.
- Governmental expenses increased by \$1,144,000 compared to 2019, which was in part due to granting COVID-19 relief aid to local businesses, non-profits, and residents and increased spending on COVID-19 related supplies and equipment.

The following graphs depict various governmental activities and shows program revenues and expenses directly related to those activities.

Expenses and Program Revenues - Governmental Activities

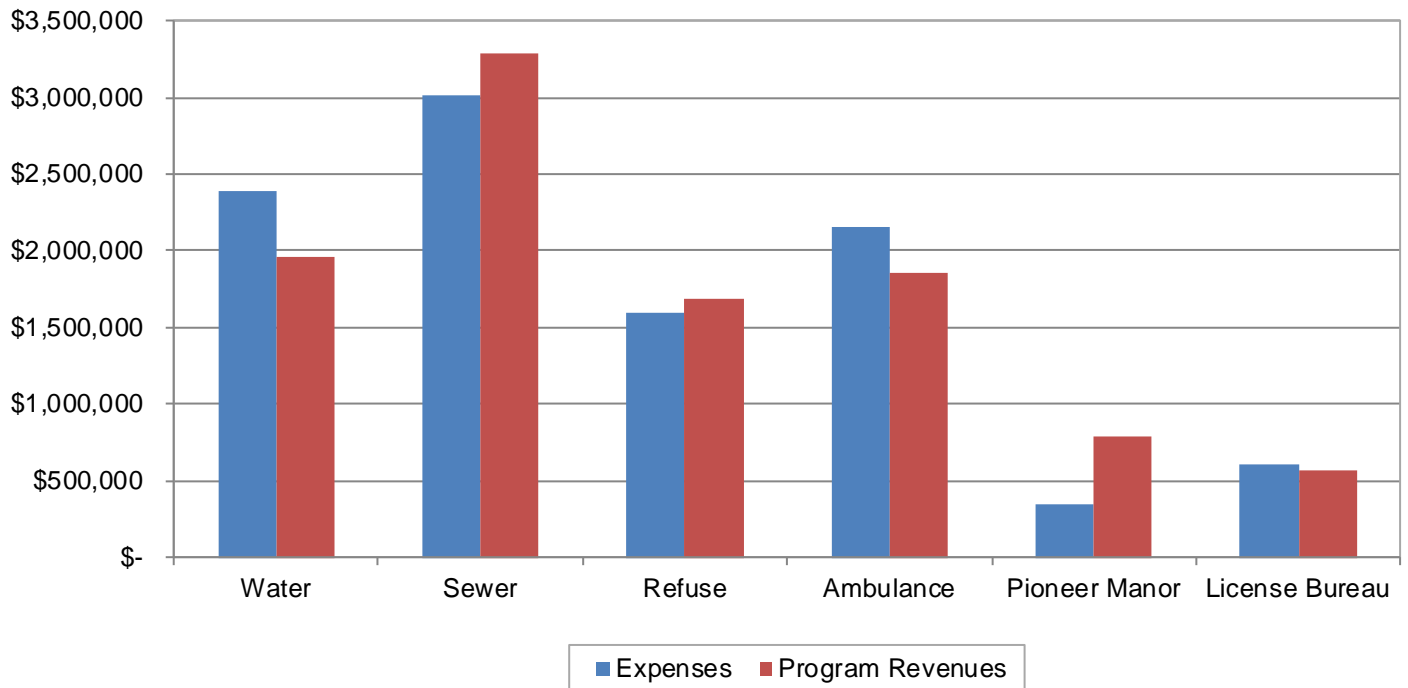

Program Revenues - Governmental Activities

BUSINESS-TYPE ACTIVITIES

Business-type activities increased the City's net position by \$643,657. The majority of the increase in net position can be largely attributed to an increase in capital grants and contributions.

Expenses and Program Revenues - Business-type Activities

Program Revenues - Business-type Activities

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

GOVERNMENTAL FUNDS

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$30,114,382, an increase of \$2,332,377 in comparison with the prior year. Approximately 19.3% of this total amount, \$5,804,642, constitutes unassigned fund balance, which is available for spending at the City's discretion. The remaining fund balance of \$24,309,740 is not available for new spending because it is either 1) nonspendable (\$3,278), 2) restricted (\$1,583,740), 3) committed (\$16,969,105) or 4) assigned (\$5,753,617). For further classification, refer to note 11 on page 110 of this report.

The General Fund expenditures exceeded revenues by \$1,338,323, but after including the other financing sources and uses, the net increase in fund balance was \$902,541. There was a decrease in the net change in fund balance due to the transfer of money to the Economic Development Fund to allocate COVID-19 relief. The General Fund had a fund balance of \$5,804,657 at year-end.

The Non-Bonded Debt Fund had a fund balance of \$502,976 at year-end, an increase of \$98,215 from 2019. The 2020 revenues collected in this fund are special assessments of \$680,777 used to finance street construction costs, investment income of \$11,271, and a \$76,913 payment on the loan agreement for the Sports Center from the White Bear Lake Area Hockey Association. The increase in fund balance was mainly due to a decrease in transfers out in 2020.

The Construction fund balance increased \$3,818. The fund balance at year-end was \$4,404,356.

The Municipal Building fund balance decreased \$7,592 in 2020. The fund balance at year-end was \$917,283.

HRA Tax Increment Pool fund balance increased \$363,730 as a result of a decrease in expenditures due to paying off an interfund loan balance with Tax Increment Financing District 25 in 2019. The ending fund balance at year-end was \$305,922.

The Economic Development fund balance increased \$799,345. The increase was due to a large transfer from the General Fund to allocate COVID-19 relief. In addition, the City sold land in the amount of \$415,020 during 2020. The fund balance at year-end was \$4,058,573.

In 2020, the Community Reinvestment fund balance decreased by \$101,820 to \$7,702,264 due to a decrease in investment income and an increase in transfers out to provide funding for street, park, and municipal building improvements.

PROPRIETARY FUNDS

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The total net position in the respective proprietary funds are: Water Fund, \$2,909,681; Sewer Fund, \$2,491,320, Refuse Fund, \$192,693; Ambulance Fund, \$480,353; License Bureau, negative \$192,464; Pioneer Manor, \$1,966,426.

The change in net position of the Water Fund was decrease of \$158,530. The majority of this decrease was due to the water tower painting project done in 2020.

The change in net position of the Sewer Fund was \$662,007. This increase was mainly attributable to the transfer in made in 2020 to close the Sewer Improvement Fund and the related connection fee revenues that are now being collected in the sewer fund.

The Ambulance fund balance decreased \$50,412. The decrease was mainly attributable to a decrease in charges for services in 2020 due to a reduction of calls during the beginning of the COVID-19 pandemic.

The License Bureau Fund saw a decrease in fund balance of \$89,663. This was a direct result of a loss in revenues due to COVID-19 related closures and process changes to comply with the State's COVID-19 guidelines.

The Pioneer Manor fund balance increased by \$288,717 in 2020 which was attributable to a federal grant received in 2020 for the window replacement project.

The Refuse Fund had a \$16,129 decrease to its fund balance during 2020 due to higher refuse disposal fees.

GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund revenues came in over budget by \$398,243. The majority of this variance was due to building permits and plan reviews coming in higher than anticipated as there were some large construction permits that were received towards the end of the year. The City also anticipated refunding on-sale liquor licenses in 2020 to provide some relief to businesses struggling during the COVID-19 pandemic; however, the City chose to refund a prorated portion of the 2020 license fees and waived the total 2021 license fees. Expenditures were \$408,137 under budget. This was primarily due to salaries and wages coming in less than budgeted in multiple departments due to position vacancies and supplies and other services and charges coming in much less than budgeted in the streets department.

There were amendments to the original budget for the General Fund in 2020. The revenue budget was increased by \$1,377,821 to total \$11,987,036, and the expenditure budget was decreased by \$454,306 to total \$11,455,093. Other financing sources (uses) were amended to increase sale of property and transfers in by \$27,557 and to increase transfers out by \$1,789,375. Net changes to the budget resulted in a budgeted surplus of \$71,125.

ECONOMIC DEVELOPMENT FUND BUDGETARY HIGHLIGHTS

Economic Development Fund revenues came in \$73,893 over budget. The majority of this variance was due to rental income coming in \$64,706 over budget. Due to the economic impact that the COVID-19 pandemic had on local business, the City authorized business owners who held a lease with the City to negotiate an agreement to defer their lease payments. One of these local businesses negotiated to defer their remaining 2020 rent payments until the beginning of 2021; however, shortly before year-end in 2020, they made a lump sum payment of their deferred rent, which was not accounted for in the budget. In addition, this fund did not budget for interest income, which came in at \$42,931 in 2020. These over-budget revenues were offset by loan repayments coming in \$54,840 under budget. This was because the City budgets for the loan repayments as revenue, but they are actually reclassified at year-end to decrease the City's loan receivable amount. Expenditures were \$302,696 under budget. The City budgeted for \$768,500 to be allocated to create grant programs for local residents, business, and non-profit organizations who were able to demonstrate economic impact from COVID-19. Actual expenditures related to these grant programs were \$597,820. In addition, the City budgeted \$69,000 for Economic Development loans to businesses to be set up during the year, but there were none in 2020.

There were amendments to the original budget for the Economic Development Fund in 2020. The revenue budget was increased by \$23,104 to total \$584,404, and the expenditure budget was increased by \$952,027 to total \$1,739,523. Other financing sources (uses) were amended to increase the sale of capital assets by \$858 and to add transfers in of \$1,489,375 and transfers out of \$262,890.

CAPITAL ASSETS

The City's investment in capital assets for its government and business-type activities as of December 31, 2020 totals \$82,458,430 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery, equipment, park facilities, streets, storm sewers, and water and sewer basins.

Major capital asset additions, excluding previously constructed infrastructure, during the current fiscal year include the following:

- Acquisition of a building totaling \$212,707
- Addition of work-in-process for the first installment payment of a fire truck totaling \$607,664. The second installment payment will be made in early 2021 when the fire truck is completed and received by the City.
- Acquisition of a vector truck totaling \$464,521
- Pioneer Manor Window Replacement Project totaling \$376,522

Utility Revenue Bonds	-	-	-	860,000	-	860,000
Premium on bonds	546,777	223,480	323,297	59,389	-	59,389
Total	\$ 18,596,777	\$ 15,468,480	\$ 3,128,297	\$ 919,389	\$ -	\$ 919,389

Standard & Poor's Rating Services raised the City's bond rating to AA+ in May 2018 and the rating remains unchanged.

State statutes limit the amount of general obligation debt a Minnesota city may issue up to 3% of total Estimated Market Value. The current debt limitation for the City of White Bear Lake is \$93,504,588. The City had \$3,210,784 of debt applicable to this limit at year-end. Additional information of the City of White Bear Lake's long-term debt can be found in the financial statement Note 5 of the report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

- Ramsey County had an annual average unemployment rate at the end of 2020 of 4.7%. This compares with unemployment rates of 4.9% for the State of Minnesota and 6.5% for the United States.
- The City's local tax capacity will increase by 7.6% for property taxes payable in 2021.
- City population is expected to remain stable or increase in 2021.

These factors were considered in preparing the City's budget for the 2021 fiscal year. The City's adopted 2021 budget includes a property tax levy of \$7,370,000, which is 6.7% more than the prior year's levy.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department at City of White Bear Lake, 4701 Highway 61 North, White Bear Lake, Minnesota 55110-3227, (651-429-8526).

City of White Bear Lake, Minnesota
 Reconciliation of the Balance Sheet of Governmental Funds
 to the Statement of Net Position
 Governmental Funds
 December 31, 2020

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances - governmental funds	\$ 30,114,382
Capital assets used in governmental activities are not financial resources and, therefore, not reported in the governmental funds.	
Capital assets	121,627,042
Less accumulated depreciation	(44,488,819)
Other long-term assets are not available to pay current period expenditures and, therefore, are reported as unavailable revenue in the funds.	
	6,535,210
Governmental funds do not report long-term amounts related to pensions	
Deferred outflows of pension resources	3,533,479
Net pension asset	2,584,675
Net pension liability	(6,529,878)
Deferred inflows of pension resources	(3,782,718)
Internal service funds are used by the City to charge the costs of certain activities, such as insurance, employee benefits to individual funds and maintenance of City vehicles. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	
	2,163,447
Governmental funds do not report a liability for accrued interest until due and payable	
	(223,147)
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds.	
Bonds payable	(18,050,000)
Bond premiums are reported as a liability within the Statement of Net Position and are reported as an other financing source in the year the debt is issued in governmental funds	
	(546,777)
Net position of governmental activities	\$ 92,936,896

City of White Bear Lake, Minnesota
 Reconciliation of the Statement of Revenues, Expenditures,
 and Changes in Fund Balances of Governmental Funds
 to the Statement of Activities
 For the Year Ended December 31, 2020

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 2,332,377
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays were below depreciation in the current period.</p>	
Capital outlay	2,724,497
Depreciation expense	(3,539,803)
<p>The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to decrease net position.</p>	
	(76,740)
<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>	
Delinquent taxes	4,684
Special assessments	(220,383)
Notes receivable	(18,053)
<p>The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>	
Proceeds from long-term debt	(3,580,000)
Debt issuance premium	(341,970)
Principal repayments	775,000
Interest payments	(33,712)
<p>Long-term pension activity is not reported in governmental funds.</p>	
Pension expense	630,268
Pension revenue	75,274
<p>Premiums are recognized when debt is issued in the governmental funds but amortized over the life of the debt in the Statement of Activities</p>	
	18,673
<p>Internal service funds are used by the City to charge the costs of certain activities, such as insurance, employee benefits to individual funds, and maintenance of City vehicles. The net revenue (expense) of the internal service funds is reported in governmental activities.</p>	
	280,343
Changes in net position of governmental activities	\$ (969,545)

The notes to financial statements are an integral part of this statement.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Note 1: Summary of Significant Accounting Policies

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other non-exchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support.

B. Reporting Entity

The City of White Bear Lake (the City) is established as a chartered "home rule" city as permitted under the laws of the State of Minnesota. The charter provides for a council/manager form of government. Within this form, the City is a municipal corporation governed by an elected mayor and five-member council. The City provides the following services: general administration, planning, zoning, public safety, streets, parks, public improvements, water, sewer and refuse utilities, ambulance services, sport center facility, senior housing facility and motor vehicle registration, vehicle licensing, and passport services.

As required by generally accepted accounting principles, these financial statements present the City of White Bear Lake and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations. Therefore, data from these units are combined with data of the primary government.

Blended Component Unit: The White Bear Lake Housing and Redevelopment Authority (the Authority) was created by the City to carry out the responsibilities associated with housing and redevelopment. The Authority provides this assistance through the administration of various programs. The Authority is governed by a five-member council comprised of the White Bear Lake five ward council members and the Authority's Executive Director is the City Manager. Because the City Council ward members also serve as the Authority's governing body, the Authority is reported as a blended component unit of the City and has operational responsibility for the component unit. The Authority does not issue separate financial statements. The Authority's financial activity is reported in a separate fund within the City's Capital Project Funds.

C. Basis of Presentation - Government Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the government has one blended component unit. While the White Bear Lake Housing and Redevelopment Authority is not considered a major component unit, it is a blended component shown in a separate column in the governmental fund financial statements. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the inter-fund services provided and the charges between other functions of the government. Elimination of these charges would distort costs and program revenues reported for the various functions.

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for the fund categories of governmental, proprietary, and fiduciary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. The non-major funds are presented in separate columns in the Combining statements and schedules sections of the report.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Non-Bonded Debt fund provides for street construction costs that will be financed through special assessments not associated with a specific debt issue.

The Construction fund accounts for transactions pertaining to public improvement construction projects.

The Municipal Building fund accounts for capital improvement project costs to municipal facilities.

The HRA Tax Increment Pool fund accounts for tax increment proceeds that are dedicated to fund specific economic development and redevelopment projects within the area wide district.

The Economic Development fund accounts for costs to support economic activities.

The Community Reinvestment fund provides constant funding for street, park, and municipal building improvements and is governed by City ordinance.

The City reports the following major proprietary funds:

The Water and Sewer funds account for the activities related to the City's water and sewer services.

The Refuse fund accounts for weekly collection and disposal of residential garbage, yard waste, and recyclable materials.

The Ambulance fund accounts for transactions related to providing ambulance service to the White Bear Lake service area.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Additionally, the City reports the following fund types:

Internal service funds account for the activities provided to other departments of the City on a cost reimbursement basis for insurance and employment expenses.

Custodial funds report fiduciary activities that are not held in a trust or equivalent arrangement. The City's custodial funds account for activities of deputy registrar activities and miscellaneous funds held for other organizations.

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column. However, interfund services provided and used are not eliminated in the process of consolidation.

Furthermore, activities occur during the year which involve transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and of the City's internal service funds are charges to customers for sales and services.

Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period.

Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is actually received by the government.

F. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position / Fund Balance

1. Cash and cash equivalents

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. The proprietary funds' portion in the government-wide cash and temporary investments pool is considered to be cash and cash equivalents for the purposes of the Statement of Cash Flows.

Cash balances from all funds are pooled and invested, to the extent available, in certificates of deposit and other authorized investments. Earnings from such investments are allocated on the basis of applicable participation by each of the funds.

Minnesota Statutes authorizes the City to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, shares of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota or its municipalities, certificates of deposit, bankers' acceptances, future contracts, repurchase and reverse repurchase agreements, and commercial paper of the highest quality with a maturity of no longer than 270 days and in the Minnesota Municipal Investment Pool.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Minnesota Statutes also authorize the City to invest in long-term equities. The City must maintain the highest bond rating by a national bond rating agency to qualify for this investment authority. The law limits the equity investment to index mutual funds that are held for long-term capital plans or long-term obligations. The amount invested cannot exceed 15 percent of the sum of unassigned cash, cash equivalents, deposits and investments. Equity Investments are limited to mutual funds indexed to the S & P 500, Dow Jones U.S. Total Stock Market Index or investments with the State Board of Investment.

Certain investments for the City are reported at fair value as disclosed in Note 3. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of December 31, 2020:

- Government Agency securities of \$10,796,367 are valued using quoted market prices (Level 1 inputs)
- Negotiable certificates of deposits of \$14,552,025 are valued using a matrix pricing model (Level 2 inputs)

Brokered certificates of deposit classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

2. Prepaid expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

3. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure (i.e., streets, sidewalks, distribution systems, and similar items), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost where historical records are available and at an estimated historical cost where no historical records exist.

As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The costs of normal maintenance and repairs that do not increase asset value or materially extend asset lives are not capitalized. Donated capital assets are valued at their acquisition value on the date received.

Land and construction in progress are not depreciated. Buildings, equipment, and infrastructure of the City are depreciated using the straight-line method over the following estimated useful lives:

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Assets	Years
Buildings and improvements	10 - 50 years
Furnitures and fixtures	5 - 15 years
Machinery and equipment	5 - 20 years
Distribution and collection systems	25 years
Streets	20 years
Storm sewers	25 years
Intangibles	5 - 20 years

4. Deferred outflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. Accordingly, the items, deferred pension resources and deferred OPEB resources, are reported only in the statement of net position. This item results from actuarial calculations and current year pension contributions made subsequent to the measurement date.

5. Deferred inflows of resources

In addition to liabilities, the statement of net position and fund financial statements will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The City has four items which qualify for reporting in this category. Delinquent property taxes are reported as deferred inflows of resources of the General Fund and HRA Tax Increment Pool Fund because the date of collection is unknown. Unavailable special assessments are reported in the Non-Bonded Debt Fund, Construction Fund, Economic Development Fund, and Non-Major Governmental Funds as deferred inflows because the actual collection is legally delayed between one and twenty years. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Loan/notes receivable are reported as deferred inflows of resources of the Non-Bonded Debt Fund because the collection is delayed according to the payment schedule in the loan agreement. Deferred pension resources and deferred OPEB resources are reported only in the statements of net position and results from actuarial calculations.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

6. Net position flow assumption

The City on occasion will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the City's position to consider restricted net position to have been depleted before unrestricted net position is applied.

7. Fund balance policies

In the fund financial statements, fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources reported in the governmental funds. These classifications are defined as follows:

Non-spendable - Amounts that cannot be spent because they are not in spendable form, such as prepaid items.

Restricted - Amounts related to externally imposed constraints established by creditors, grantors or contributors; or constraints imposed by state statutory provisions.

Committed - Amounts constrained for specific purposes that are internally imposed by formal action (resolution) of the City Council (the Council), which is the City's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the Council modifies or rescinds the commitment by resolution.

Assigned - Amounts constrained for specific purposes that are internally imposed. In governmental funds other than the General Fund, assigned fund balance represents all remaining amounts that are not classified as non-spendable and are neither restricted nor committed. In the General Fund, assigned amounts represent intended uses established by the Council itself or by an official to which the governing body delegates the authority. The Council has adopted a fund balance policy which delegates the authority to assign amounts for specific purposes to the Finance Director.

Unassigned - The residual classification for the General Fund and also negative residual amounts in other funds.

The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The City has formally adopted a fund balance policy for the General Fund. The City's policy is to maintain a minimum unassigned fund balance of one-half of the City's General Fund major revenue sources which are property taxes, local government aid and police state aid. Property taxes and local government payments are not received until July and December each year. Police state aid is not received until November. The reserve funding provides sufficient resources to meet cash flow needs.

G. Revenues and Expenditures / Expenses

1. Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes and other internally dedicated resources, are reported as general revenues rather than as program revenues.

2. Property taxes

Property tax levies are set by the City Council in December each year, and are certified to Ramsey and Washington Counties for collection in the following year. In Minnesota, counties act as collection agents for all property taxes.

The Counties spread all levies over assessable property; the taxes become a lien on January 1st and are recorded as receivables by the City on that date. Property taxes are paid by taxpayers in two equal installments, May 15th and October 15th, without penalty. Personal property taxes are payable in one installment on May 15th.

The Counties remit collections to the City three times a year: January, July and December. Revenues are accrued and recognized in the government-wide financial statements in the current period. In the fund financial statements, taxes that remain unpaid at December 31 are classified as delinquent taxes and fully offset by deferred inflows of resources, because it is not known when they will be available to finance current expenditures.

3. Special assessments

Special assessments are levied against the benefited properties for the assessable costs of improvement projects in accordance with State Statutes. The City generally adopts the assessment rolls when the individual projects are complete or substantially complete. The assessments are collectible over a term of years generally consistent with the term of years of the related or proposed bond issue. Collection of annual installments (including interest) is handled by the County in the same manner as property taxes. Property owners are allowed to prepay total future installments without interest or prepayment penalties.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The City recognizes special assessment revenue in the government-wide financial statements when the assessment rolls are levied. In the fund financial statements, the City recognizes special assessment revenue when it becomes both measurable and available. Current assessments, which remain unpaid at December 31, are classified as delinquent receivables and, together with deferred assessments, are fully offset by deferred inflows of resources because it is not known when they will be available to finance current expenditures.

4. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation, comp time, and sick pay benefits. The accumulation of unused vacation and comp time is limited based upon employee classification. Upon separation, the City will reimburse the employee for accumulated vacation and comp time not to exceed established maximums. The amount of unused sick leave accumulation is not limited. Upon retirement, or upon separation in good standing for employees, the City reimburses eligible employees a portion of unused sick leave according to the personnel policy and contractual agreements. All compensated absences are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements.

All liabilities for vacation leave and severance, both current and long-term portions, are recorded in the Employment Expense Fund, which is an Internal Service Fund. No liability is recorded for unpaid accumulated sick leave, except for the portion that is payable to employees as severance.

Each year, compensated absence expenditures and expenses are recorded in the governmental and enterprise funds based on the total amount accrued by the employees during the year. These charges are offset by a corresponding transfer of assets from the home departments to the Employment Expense Fund to fund the liability. The personnel policy and union contracts limit the annual accumulation of benefits that can be accumulated from year to year and the amount of severance available. The City estimates \$565,624 will be due within the next fiscal year and \$648,236 will be due in more than one year.

5. Long-term obligations

Long-term obligations are recorded in the City's government-wide statement of net position when they become a liability of the City.

The obligations are recognized as a liability of a governmental fund only when payment is due or when resources have been accumulated in a debt service fund for payment early in the following year. Long-term obligations financed through proprietary funds are accounted for in those funds.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

6. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The General Fund is typically used to liquidate the governmental net pension liability.

The total pension expense for the GERP, PEPFP, DCP and the White Bear Lake Fire Department Relief Association is as follows:

	Public Employees Retirement Association of Minnesota (PERA)			Fire Relief Association	Total All Plans
	GERP	PEPFP	DCP		
Pension expense	\$ 107,108	\$ 686,580	\$ 2,723	\$ (83,645)	\$ 712,766

7. Bond discounts / premiums / issuance costs

In governmental fund types, bond discounts / premiums are recognized in the current period. Bond discounts/premiums for proprietary fund types are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest rate method. Bond discounts are presented as a reduction of the face amount of bonds payable and premiums are presented as an increase of the full amount of bonds payable. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Inter-fund transactions

Internal services provided and used between the funds are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Other inter-fund transactions are reported as transfers.

Inter-fund transactions within the respective categories of governmental activities and business-type activities in the government-wide statement of activities are eliminated. The internal balances caption on the government-wide statement of net position represents inter-fund receivables or payables between the governmental and business-type activities.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Note 2: Stewardship, Compliance and Accountability

A. Budgetary basis of accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles.

The City Charter grants the City Council full authority over the financial affairs of the City. The City Manager is charged with the responsibility of preparing the annual budget estimates and enforcing the financial management provisions specified in the budget. Upon adoption of the annual budget resolution by the Council, the budget becomes the formal appropriation for City operations. Legal compliance is adhered to as budgetary and actual amounts are presented in the Required Supplementary Information according to Generally Accepted Accounting Principles (GAAP). Once the budget resolution is adopted, the Council can increase the budget only if actual receipts exceed the budgeted estimates, or by a four/fifths vote authorizing the transfer of sums from the previous fiscal year's assigned or unassigned fund balances.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments corresponding to unperformed (executor) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. The City has no outstanding encumbrances as of December 31, 2020. The City amended the General Fund budget during the year increasing revenues and other financing sources by \$1,405,378 and increasing expenditures and other financing uses by \$1,335,069. The City amended the Economic Development fund budget during the year increasing revenues and other financing sources by \$1,513,337 and increasing expenditures and other financing uses by \$1,214,917.

B. Deficit Fund Equity

At December 31, 2020, individual funds with deficit fund balances are as follows:

Fund	Amount
Enterprise	
License Bureau	\$ 192,464
Internal Service Fund	
Employment Expense Fund	236,605

Deficits will be eliminated with future charges for services.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Note 3: Cash Deposits and Investments with Financial Institutions

A. Deposits

Cash balances of the City's funds are combined (pooled) and invested to the extent available in various investments authorized by Minnesota Statutes. Each fund's portion of this pool (or pools) is displayed in the financial statements as "cash and cash equivalents" or "investments". For purposes of identifying risk of investing public funds, the balances and related restrictions are summarized below.

Custodial Credit Risk - Deposits: The City addresses custodial credit risk by having the authority from the City Council to maintain deposits with various financial institutions that are members of the Federal Reserve System.

As required by Minnesota Statutes, any of the City's deposits are to be protected by \$250,000 of federal depository insurance and pledged collateral. The market value of pledged collateral must equal 110% of the deposits not covered by insurance or bonds.

As of December 31, 2020, the City was not exposed to custodial credit risk because deposits were fully collateralized. The City had deposits of \$1,736,498 as of December 31, 2020. The City's book balance for cash as of December 31, 2020 was \$1,400,152.

B. Investments

The following chart summarizes the City's deposits and investments using segmented time distribution.

Types of Investments	Credit Quality/ Ratings (1)	Segmented Time Distribution (2)	Amount	Fair Value Measurement Using	
				Level 1	Level 2
Pooled investments at amortized costs					
4M Fund	N/A	Less than 1 year	\$ 2,134,099		
Brokered money market funds	N/A	Less than 1 year	1,001,013		
Brokered insured cash sweep	N/A	Less than 1 year	8,614,859		
Non-pooled investments at fair value					
Government agency securities	AAA	Less than 1 year	5,541,429	\$ 5,541,429	\$ -
Government agency securities	AAA	1 to 3 years	4,454,737	4,454,737	-

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Ratings are provided by various credit rating agencies and where applicable, indicate associated credit risk. Minnesota statutes and the City's investment policy limit the City's investments to the list above.

Custodial Credit Risk: Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City's investment policy does not address custodial credit risk but typically limits its exposure by purchasing insured or registered investments.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. In accordance with the City's investment policy, the City diversifies its investment portfolio to eliminate the risk of loss resulting from over-concentration of assets in a specific maturity, a specific issuer or a specific class of securities. As of December 31, 2020, the City is in compliance with its investment policy. The City had invested 5% or more of its total investment portfolio in the following issuers: FNMA (9%), FHLB (6%), FHLMC (5%) and FFCB (21%).

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the City will minimize interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations. Also, no more than 30 percent of the portfolio should have maturities exceeding 5 years.

C. Cash and Investments Summary

A reconciliation of cash and investments as reported on the statement of net position follows:

Bank Deposits	<u>\$ 1,400,152</u>

Note 5: Long-Term Debt

A. General Obligation Debt

The City issues general obligation bonds to provide funds for the acquisition and redevelopment of property, construction of streets and utilities, financing acquisition of capital equipment, and the construction of major capital facilities. The entity's long-term debt is segregated between the amounts to be repaid from governmental activities and amounts to be repaid from business-type activities.

As of December 31, 2020, the long-term bonded debt of the financial reporting entity consisted of the following:

	<u>Interest Rate</u>	<u>Issue Date</u>	<u>Final Maturity</u>	<u>Original Issue</u>	<u>Principal Outstanding</u>
Governmental activities					
G.O. Tax Increment Bonds					
G.O. Tax Increment Refunding Bonds, Series 2012A	2.00%	4/3/2012	2/1/2023	\$ 2,650,000	\$ 510,000
G.O. Tax Increment Revenue Bonds, Series 2016A	2.00 - 3.00%	3/10/2016	2/1/2037	2,275,000	<u>2,050,000</u>
Total G.O. Tax Increment Bonds					<u>2,560,000</u>
G.O. Special Assessment Bonds					
G.O. Improvement Bonds, Series 2012B	0.40 - 2.00%	12/19/2012	2/1/2028	2,555,000	1,155,000
G.O. Bonds, Series 2018A	3.00 - 4.00%	6/14/2018	2/1/2039	5,850,000	5,625,000
G.O. Improvement Bonds, Series 2019A	3.00 - 4.00%	7/18/2019	2/1/2040	1,925,000	1,925,000

Total G.O. Special Assessment Bonds					<u>12,285,000</u>
G.O. Tax Abatement Bonds					
G.O. Tax Abatement Bonds, Series 2018B	3.00 - 3.36%	6/14/2018	2/1/2039	3,330,000	<u>3,205,000</u>
Bond premium					<u>546,777</u>
Compensated absences payable					<u>1,213,860</u>
Total governmental indebtedness					<u>\$ 19,810,637</u>
Business-type activities					
G.O. Utility Revenue Bonds, Series 2020A	2.00 - 3.00%	7/16/2020	2/1/2041	860,000	\$ 860,000
Bond premium					<u>59,389</u>
Total business-type indebtedness					<u>\$ 919,389</u>
Total City indebtedness					<u>\$ 20,730,026</u>

The above G.O. Utility Revenue Bonds will be repaid with revenues from the City's municipal water system and with the full faith and credit and taxing powers of the City. Annual revenues from operating revenues were \$1,941,190 and principal and interest payments totaled \$7,995. The percentage of revenues covering principal and interest payments was 24,280% for 2020.

Note 6: Defined Benefit Pension Plan - Statewide

A. Plan description

The City participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with *Minnesota statutes*, chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan

All full-time and certain part-time employees of the City are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

Public Employees Police and Fire Plan

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire Plan also covers police officers and firefighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA.

B. Benefits provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

General Employees Plan benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Benefit increases are provided to benefit recipients each January. Beginning January 1, 2019, the postretirement increase will be equal to 50 percent of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

Police and Fire Plan benefits

Benefits for Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50 percent after five years up to 100 percent after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014, vest on a prorated basis from 50 percent after ten years up to 100 percent after twenty years of credited service. The annuity accrual rate is 3 percent of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefit increases are provided to benefit recipients each January. Beginning in 2019, the postretirement increase will be fixed at 1 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota statutes chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

General Employees Fund contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2020 and the City was required to contribute 7.50 percent for Coordinated Plan members. The City contributions to the General Employees Fund for the year ended December 31, 2020, 2019, and 2018 were \$337,960, \$343,333, and \$357,270, respectively. The City's contributions were equal to the required contributions as set by state statute.

Police and Fire Fund contributions

Police and Fire member's contribution rates increased from 11.30 percent of pay to 11.80 percent and employer rates increased from 16.95 percent to 17.70 percent on January 1, 2020. The City's contributions to the Police and Fire Fund for the years ending December 31, 2020, 2019, and 2018 were \$746,128, \$657,326, and \$474,595, respectively.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

D. Pension costs

General Employees Fund pension costs

At December 31, 2020, the City reported a liability of \$3,843,088 for its proportionate share of the General Employees Fund's net pension liability. The City's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the City totaled \$118,549. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020 relative to the total employer contributions received from all of PERA's participating employers.

At June 30, 2020, the City's proportionate share was 0.0641 percent, which was a decrease of 0.0008 percent from its proportion measured as of June 30, 2019.

City's proportionate share of the net pension liability	\$ 3,843,088
State of Minnesota's proportionate share of the net pension liability associated with the City	118,549
Total	\$ 3,961,637

For the year ended December 31, 2020, the City recognized pension expense of \$96,791 for its proportionate share of General Employees Plan's pension expense. In addition, the City recognized an additional \$10,317 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

At December 31, 2020, the City reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources, related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 67,116	\$ 18,162
Changes in Actuarial Assumptions	15,375	161,406
Net Difference Between Projected and Actual Earnings on Plan Investments	196	-
Changes in Proportion	-	285,179
Contributions Paid to PERA Subsequent to the Measurement Date	168,312	-
Total	\$ 250,999	\$ 464,747

The \$168,312 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2021	\$ (384,938)
2022	(150,703)
2023	60,730
2024	92,851
2025	-
Total	\$ (382,060)

Police and Fire fund pension costs

At December 31, 2020, the City reported a liability of \$4,796,591 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportionate share of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019, through June 30, 2020, relative to the total employer contributions received from all of PERA's participating employers. The City's proportionate share was 0.3639 percent, which was an increase of 0.0403 percent from its proportion measured as of June 30, 2019.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The State of Minnesota also contributed \$13.5 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2020. The contribution consisted of \$4.5 million in direct state aid that does meet the definition of a special funding situation and \$9.0 million in fire state aid that does not meet the definition of a special funding situation. The \$4.5 million direct state was paid on October 1, 2019. Thereafter, by October 1 of each year, the state will pay \$9 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in fire state aid will continue until the fund is 90 percent funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90 percent funded, whichever occurs later.

As a result, the State of Minnesota is included as a non-employer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only for the \$4.5 million in direct state aid. Police and Fire Plan employers need to recognize their proportionate share of the State of Minnesota's pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2020, the City recognized a pension expense of \$651,822 for its proportionate share of Police and Fire Plan's pension expense.

The State of Minnesota is not included as a non-employer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in fire state aid. The City also recognized \$34,758 for the year ended December 31, 2020 as revenue and an offsetting reduction of net pension liability for its proportionate share of the State of Minnesota's on-behalf contributions to the Police and Fire Fund.

At December 31, 2020, the City reported its proportionate share of Police and Fire Plan's deferred outflows of resources and deferred inflows of resources, from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 200,519	\$ 369,162
Changes in Actuarial Assumptions	1,698,983	2,774,767
Net Difference Between Projected and Actual Earnings on Plan Investments	366,659	-
Changes in Proportion	1,379,937	6,525
Contributions to PEPFF Subsequent to the Measurement Date	373,968	-
Total	\$ 4,020,066	\$ 3,150,454

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The \$373,968 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

2020	\$ 57,599
2021	(628,561)
2022	431,185
2023	518,128
2024	<u>117,293</u>
 Total	 <u><u>\$ 495,644</u></u>

E. Actuarial assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50% per year
Active Member Payroll Growth	3.25% per year
Investment Rate of Return	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for the General Employees Plan and 1.0 percent per year for the Police and Fire Plan.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and become effective with the July 1, 2020 actuarial valuation. The most recent four-year experience study for Police and Fire Plan was completed in 2020. The recommended assumptions for those plans were adopted by the Board and will be effective with the July 1, 2021 actuarial valuations if approved by the Legislature.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The following changes in actuarial assumptions occurred in 2020:

General Employees Fund

Changes in Actuarial Assumptions:

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions:

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

Police and Fire Fund

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2018 to MP-2019.

Changes in Plan Provisions:

- There have been no changes since the prior valuation.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic Stocks	35.50 %	5.10 %
International Stocks	17.50	5.30
Bonds (Fixed Income)	20.00	0.75
Alternative Assets (Private Markets)	25.00	5.90
Cash	<u>2.00</u>	-
Total	<u>100.00 %</u>	

F. Discount rate

The discount rate used to measure the total pension liability in 2020 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund and Police and Fire Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension liability sensitivity

The following presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	<u>City Proportionate Share of NPL</u>		
	<u>1 Percent Decrease (6.50%)</u>	<u>Current (7.50%)</u>	<u>1 Percent Increase (8.50%)</u>
General Employees Fund	\$ 6,159,137	\$ 3,843,088	\$ 1,932,534
Police and Fire Fund	9,560,297	4,796,591	855,460

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

H. Pension plan fiduciary net position

Detailed information about each pension plan’s fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

Note 7: Public Employees Defined Contribution Plan (Defined Contribution Plan)

Three part-time ambulance personnel of the City of White Bear Lake are covered by the Defined Contribution Plan (DCP), a multiple-employer deferred compensation plan administered by PERA. The DCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses, therefore, there is no future liability to the employer. *Minnesota statutes*, chapter 353d.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees contributions must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2.0 percent of employer contributions and twenty-five hundredths of 1 percent (0.25 percent) of the assets in each member’s account annually.

Pension expense for the year is equal to contributions made. Total contributions made by the City during the fiscal year 2020 were:

Contribution Amount		Percentage of Covered Payroll		Required Rate
Employee	Employer	Employee	Employer	
\$ 2,723	\$ 2,723	5.00%	5.00%	5.00%

The City and member’s contributions to the DCP plan for the years ending December 31, 2020, 2019 and 2018 were \$2,723, \$5,198 and \$12,083, respectively.

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit plan administered by the City of White Bear Lake and additions to and deductions from the plan’s fiduciary net position have been determined on the same basis as they are reported by the plan. Investments are reported at fair value.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Note 8: Defined Benefit Pension Plan - Fire Relief Association

A. Plan description

The White Bear Lake Fire Department (the Department) participates in the Statewide Volunteer Firefighter Retirement Plan (Volunteer Firefighter Plan accounted for in the Volunteer Firefighter Fund), an agent multiple-employer monthly defined benefit pension plan administered by the Public Employees Retirement Association of Minnesota (PERA). The Volunteer Firefighter Plan covers volunteer firefighters of municipal fire departments or independent nonprofit firefighting corporations that have elected to join the plan. As of December 31, 2020, the plan covered 34 active firefighters and 56 vested terminated firefighters whose pension benefits are deferred. The plan is established and administered in accordance with Minnesota statutes, chapter 353g.

B. Benefits provided

The Volunteer Firefighter Plan provides retirement, death, and supplemental benefits to covered firefighters and survivors. Benefits are paid based on the number of years of service multiplied by a benefit level approved by the City. Members are eligible for a monthly retirement benefit at 50 years of age with five years of service. Plan provisions include a pro-rated vesting schedule that increases from 5 years at 40 percent through 20 years at 100 percent.

C. Contributions

The Volunteer Firefighter Plan is funded by fire state aid, investment earnings and, if necessary, employer contributions as specified in Minnesota statutes and voluntary City contributions. The State of Minnesota contributed \$263,728 in fire state aid to the fund for the year ended December 31, 2020. Required employer contributions are calculated annually based on statutory provisions. The City's statutorily-required contributions to the Volunteer Firefighter Fund for the year ended December 31, 2020, were \$0. The City's contributions were equal to the required contributions as set by state statute, if applicable. In addition, the City made no voluntary contributions to the plan.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

D. Pension costs

At December 31, 2020, the City reported a net pension asset of \$2,584,675 for the plan. The net pension liability (asset) was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability (asset) in accordance with GASB 68 was determined by Gabriel Roeder Smith & Company applying an actuarial formula to specific census data certified by the Department as of December 31, 2020. The following table presents the changes in net pension liability (asset) during the year.

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a-b)
Beginning Balance January 1, 2019	<u>\$ 4,693,283</u>	<u>\$ 6,359,573</u>	<u>\$ (1,666,290)</u>
Changes for the Year			
Service cost	114,923	-	114,923
Interest on pension liability (asset)	267,297	-	267,297
Projected investment return	-	1,129,252	(1,129,252)
Contributions (employer)	-	248,007	(248,007)
Benefit payments	(706,520)	(706,520)	-
Administrative expenses	-	(17,118)	17,118
Other	-	(59,536)	59,536
Total Net Changes	<u>(324,300)</u>	<u>594,085</u>	<u>(918,385)</u>
Ending Balance December 31, 2019	<u>\$ 4,368,983</u>	<u>\$ 6,953,658</u>	<u>\$ (2,584,675)</u>

For the year ended December 31, 2020, the City recognized negative pension expense of \$347,373.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

At December 31, 2020, the City reported deferred inflows of resources and deferred outflows of resources, its contributions subsequent to the measurement date, related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ -	\$ 375,982
Changes in Actuarial Assumptions	31,729	246,934
Net Difference Between Projected and Actual Earnings on Plan Investments	-	420,532
Contributions to Plan Subsequent to the Measurement Date	263,728	-
Total	\$ 295,457	\$ 1,043,448

Deferred outflows of resources totaling \$263,728 related to pensions resulting from the City's contributions to the plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to the plan will be recognized in pension expense as follows:

2021	\$ (300,200)
2022	(291,400)
2023	(127,501)
2024	(292,618)
2025	-
Thereafter	-
Total	\$ (1,011,719)

E. Actuarial assumptions

The total pension liability at December 31, 2019 was determined using the entry age normal actuarial cost method and the following actuarial assumptions:

Active Firefighters are assumed to retire at the later of age 53 and 20 years of service	
Salary increases	N/A
Investment rate of return	6.00%
Inflation rate of return	3.00%

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The 20-year municipal bond yield actuarial assumption changed from 3.71% in 2018 to 2.75% in 2019. There were no other changes in actuarial assumptions in 2019.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using the plan's target investment allocation along with long-term return expectations by asset class. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic Stocks	35.00 %	5.10 %
International Stocks	15.00	5.30
Bonds	45.00	0.75
Unallocated Cash	<u>5.00</u>	-
Total	<u><u>100.00 %</u></u>	

F. Discount rate

The discount rate used to measure the total pension liability was 6.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions to the plan will be made as specified in statute. Based on that assumption and considering the funding ratio of the plan, the fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension liability sensitivity

The following presents the City's net pension liability (asset) for the plan, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate 1 percent lower or 1 percent higher than the current discount rate:

	<u>1 Percent Decrease (5.00%)</u>	<u>Current (6.00%)</u>	<u>1 Percent Increase (7.00%)</u>
Defined benefit plan	\$ (2,123,111)	\$ (2,584,675)	\$ (2,971,704)

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

H. Pension plan fiduciary net position

Detailed information about the Volunteer Firefighter Fund's fiduciary net position as of June 30, 2019, is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained at www.mnpera.org.

Note 9: Inter-fund Receivables, Payables, and Transfers

A. Due To and Due From Other Funds

The internal balances amount on the Statement of Net Position represents the consolidation of internal service fund activities related to governmental and enterprise fund activities. This is a reconciliation adjustment and is not a formal due to and due from fund.

The Non-Bonded Fund and the HRA Tax Increment Pool Fund have internal advances from various funds as follows:

Fund	Receivable	Payable
Insurance Fund	\$ 126,000	\$ -
Non-Bonded Debt Fund	-	126,000
Economic Development Fund	750,000	-
HRA Tax Increment Pool Fund	-	750,000
Total	\$ 876,000	\$ 876,000

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

B. Transfers

The composition of inter-fund transfers for the year ended December 31, 2020 is as follows:

<u>Transfers In</u>	<u>Transfers Out</u>	<u>Amount</u>	<u>Purpose</u>
General Fund	Water Fund	\$ 120,000	(1)
	Sewer Fund	110,000	(1)
	Refuse Fund	110,000	(1)

Total Transfers		<u>\$ 5,805,591</u>	

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

- 1) Provide funding for professional and administrative services
- 2) Provide funding for various capital improvement projects
- 3) Provide funding to stabilize fund balance
- 4) Allocate COVID-19 relief
- 5) Provide funding for Armory operations
- 6) Contribute resources to build reserves for future facility improvements
- 7) Provide funding for debt service payment obligations
- 8) Close out the Water Improvement Fund
- 9) Close out the Sewer Improvement Fund
- 10) Additional revenue to support the tax levy in paying the debt service payment
- 11) Prepay a portion of the 2021 principal amount of the internal loan repayment for the GO Tax Abatement Bonds for the Sports Center Renovations
- 12) Provide funding for the purchase of capital equipment

Note 10: Note Receivable / Loans Receivable

On December 11, 2017, the City entered into an agreement with the White Bear Lake Area Hockey Association to share the cost of the Sports Center Renovation. The Association agreed to provide up to \$2,500,000 in cost sharing for the project, \$500,000 of which was fronted as an initial contribution to the project. The annual interest rate is 3.27%. Annual principal and interest payments are due December 1 of each year and are summarized below:

<u>Year Ending December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 79,540	\$ 58,270	\$ 137,810
2022	82,141	55,669	137,810
2023	84,827	52,983	137,810
2024	87,601	50,209	137,810
2025	90,465	47,344	137,810
2026 - 2030	498,682	190,366	689,048
2031 - 2035	585,726	103,322	689,048
2036 - 2038	272,966	13,997	286,963
Total	<u>\$ 1,781,947</u>	<u>\$ 572,158</u>	<u>\$ 2,354,105</u>

In addition, the City has economic development loans outstanding totaling \$337,982

Note 12: Other Commitments and Contingencies

In connection with the normal conduct of its affairs, the City is involved in various claims, litigation and judgments. It is expected that the final settlement of these matters will not materially affect the financial condition of the City.

The City Attorney has indicated that existing and pending lawsuits, claims and other actions in which the City is a defendant are either covered by insurance; of an immaterial amount; or, in the judgment of the City attorney, remotely recoverable by plaintiffs.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Note 13: Federally Assisted Programs - Compliance Audits

The City receives financial assistance from Federal and State governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the applicable fund.

However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2020.

Note 14: Risk Management

The City established the Insurance Fund to account for losses related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disaster. The Insurance Fund provides for losses up to \$25,000 for each claim (annual aggregate is \$100,000). The City purchases commercial insurance coverage above the deductible amount through the League of Minnesota Insurance Trust with other cities in the State. This is a public entity risk pool currently operating as a common risk management and insurance program. The City pays an annual premium to the League for its insurance coverage. The League of Minnesota Cities Insurance Trust is self-sustaining through member premiums and re-insures through commercial companies for excess claims. The City is covered through the pool for any claims incurred but unreported, but retains risk for the deductible portion of its insurance policies. The amount of the deductibles is considered immaterial to the financial statements.

There were no significant reductions in insurance from the previous year or settlements in excess of insurance coverage for any of the past three fiscal years.

The City's workers compensation insurance is a deductible premium option. Transactions related to workers compensation insurance are reported in the Employment Expense Fund.

The Insurance and Employment Expense Funds are presented as internal service funds. All funds of the City participate in the programs and make payments to the Insurance and Employment Expense fund based on historical cost information. At December 31, 2020, there is no liability reported in the funds based on the requirements of Governmental Accounting Standards Board Statement Number 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Note 15: Other Post-Employment Benefits

A. Plan description

The City's defined benefit OPEB plan provides a single-employer defined benefit health care plan to eligible retirees. The plan offers medical coverage. Medical coverage is administered by Medica. Dental coverage is administered by Health Partners. It is the City's policy to periodically review its medical coverage and to obtain requests for proposals in order to provide the most favorable benefits and premiums for City employees and retirees. No assets are accumulated in a trust.

B. Benefits provided

The plan is required by State Statute to provide healthcare insurance for eligible retirees and their spouses through the City's group health insurance plan, which covers both active and retired members. Retirees reimburse the city of the total cost of their healthcare insurance, plus a two percent administrative fee.

C. Contributions

Retirees contribute to the health care plan at the same rate as City employees. This results in the retirees receiving an implicit rate subsidy. Contribution requirements are established by the City, based on the contract terms with Medica and Health Partners. The required contributions are based on projected pay-as-you-go financing requirements. For the year 2020, the City contributed \$0 to the plan.

For the governmental activities, the net OPEB obligation is generally liquidated by the General Fund.

D. Members

As of December 31, 2020, the following were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	11
Active employees	<u>75</u>
Total	<u><u>86</u></u>

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

E. Actuarial assumptions

The total OPEB liability was determined by an actuarial valuation as of December 31, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Key Methods and Assumptions Used in Valuation of Total OPEB Liability

Investment rate of return	3.50%, net of investment expense
Salary increases	3.25% to 11.25% for General Employees; 3.25% to 12.25% for Police and Fire Employees
Inflation	2.50%
Healthcare cost trend increases	8.25% initially, gradually decreasing to an ultimate rate of 3.5% in year 10
Mortality assumption	RP-2014 annuitant generational mortality table, projected with scale MP-2018 from a base year of 2014 (MP-2016 from a base year of 2006 for Police and Fire employees)

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study for the period January 1, 2019 - December 31, 2019.

The discount rate used to measure the total OPEB liability was 2.00% based on the estimated yield of 20-Year-AA-rated municipal bonds.

F. Total OPEB liability

The City's total OPEB liability of \$1,464,554 was measured as of December 31, 2020, and was determined by an actuarial valuation as of that date.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Changes in the total OPEB liability are as follows:

	Total OPEB Liability
Balances at January 1, 2020	\$ 1,341,760
Changes for the year	
Service cost	59,639
Interest	36,519
Differences between expected and actual economic experience	24,185
Changes of assumptions	89,717
Benefit payments	(87,266)
Net changes	122,794
Balances at December 31, 2020	\$ 1,464,554

Changes of assumptions and other inputs reflect a change in the discount rate from 2.75% in 2019 to 2.00% in 2020.

G. OPEB liability sensitivity

The following presents the City's total OPEB liability calculated using the discount rate of 2.00% as well as the liability measured using 1% lower and 1% higher than the current discount rate.

Total OPEB Liability/(Asset)		
1% decrease (1.00%)	Current (2.00%)	1% increase (3.00%)
\$ 1,594,994	\$ 1,464,554	\$ 1,346,330

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower and 1% higher than the current healthcare cost trend rates.

Total OPEB Liability/(Asset)		
1% decrease	Current	1% increase
(7.25% decreasing to 2.5%)	(8.25% decreasing to 3.5%)	(9.25% decreasing to 4.5%)
\$ 1,307,065	\$ 1,464,554	\$ 1,647,611

H. OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB

For the year ended December 31, 2020, the City recognized OPEB expense of \$52,375. At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 174,962	\$ 2,109
Changes of assumptions	245,378	19,924
Total	\$ 420,340	\$ 22,033

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Financial Statements
December 31, 2020

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year Ending December 31,</u>	<u>Total</u>
2021	\$ 43,483
2022	43,483
2023	43,483
2024	43,483
2025	43,483
2026	43,483
2027	43,483
Thereafter	93,926
Total	<u>\$ 398,307</u>

Note 16: Conduit Debt Obligations

Conduit debt obligations are certain limited obligation revenue bonds or similar debt instruments issued for the express purpose of providing capital financing for a specific third party. The City has issued various revenue bonds to provide funding to private-sector entities for projects deemed to be in the public interest. Although these bonds bear the name of the City, the City has no obligation for such debt beyond the resources provided by related leases or loans. Accordingly, the bonds are not reported as liabilities in the financial statements of the City. The outstanding balance of conduit debt at December 31, 2020, is \$49,369,012.

Note 17: COVID-19

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency because of a new strain of coronavirus (“COVID-19”) and the risks to the international community as virus spreads globally. On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally. In response to the pandemic, the State of Minnesota has issued stay-at-home orders and other measures aimed at slowing the spread of the coronavirus.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. Due to the rapid development and fluidity of this situation, the City cannot determine the ultimate impact that the COVID-19 pandemic will have on its financial condition, liquidity, and future revenue collection, and therefore any prediction as to the ultimate impact on the City’s financial condition, liquidity, and future results of its revenue collections is uncertain.

Notes to the Required Supplementary Information - General Employees Fund

Changes in actuarial assumptions

2020 - The price inflation assumption was decreased from 2.50% to 2.25%. The payroll growth assumption was decreased from 3.25% to 3.00%. Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates. Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements. Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter. Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females. The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments. The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019. The assumed spouse age difference was changed from two years older for females to one year older. The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2015 to MP-2017. The assumed benefit increase was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter to 1.25 percent per year.

2017 - The Combined Service Annuity (CSA) loads were changed from 0.8 percent for active members and 60 percent for vested and non-vested deferred members. The revised CSA loads are now 0.0 percent for active member liability, 15.0 percent for vested deferred member liability and 3.0 percent for non-vested deferred member liability. The assumed post-retirement benefit increase rate was changed from 1.0 percent per year for all years to 1.0 percent per year through 2044 and 2.5 percent per year thereafter.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2035 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 7.5 percent. Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2035 and 2.5 percent per year thereafter.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Required Supplemental Information
December 31, 2020

Changes in plan provisions

2020 - Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019 - The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 - The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Contribution stabilizer provisions were repealed. Postretirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019. For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter. The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

2016 - No changes noted.

2015 - On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised.

Notes to Required Supplemental Information
December 31, 2020

Notes to the Required Supplementary Information - Public Employees Police and Fire Fund

Changes in actuarial assumptions

2020 - The morality projection scale was changed from MP-2018 to MP-2019.

2019 - The mortality projection scale was changed from MP-2017 to MP-2018.

2018 - The mortality projection scale was changed from MP-2016 to MP-2017.

2017 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The Combined Service Annuity (CSA) load was 30 percent for vested and non-vested deferred members. The CSA has been changed to 33 percent for vested members and 2 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.0 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65 percent to 60 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.6 percent to 7.5 percent.

2016 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2037 and 2.5 percent per year thereafter to 1.0 percent per year for all future years. The assumed investment return was changed from 7.9 percent to 7.5 percent. The single discount rate was changed from 7.9 percent to 5.6 percent. The assumed future salary increases, payroll growth and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth and 2.50 percent for inflation.

2015 - The assumed post-retirement benefit increase rate was changed from 1.0 percent per year through 2030 and 2.5 percent per year thereafter to 1.0 percent per year through 2037 and 2.5 percent per year thereafter.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Required Supplemental Information
December 31, 2020

Changes in plan provisions

2020 - No changes noted

2019 - No changes noted

2018 - As set by statute, the assumed post-retirement benefit increase was changed from 1.0 percent per year through 2064 and 2.5 percent per year, thereafter, to 1.0 percent for all years, with no trigger. An end date of July 1, 2048 was added to the existing \$9.0 million state contribution. New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter until the plan reaches 100 percent funding, or July 1, 2048, if earlier. Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019 and 11.80 percent of pay, effective January 1, 2020. Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019 and 17.70 percent of pay, effective January 1, 2020. Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018. Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply. Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 - Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates. Assumed rates of retirement were changed, resulting in fewer retirements. The combined service annuity (CSA) load was 30.00 percent for vested and non-vested, deferred members. The CSA has been changed to 33.00 percent for vested members and 2.00 percent for non-vested members. The base mortality table for healthy annuitants was changed from the RP-2000 fully generational table to the RP-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 disabled mortality table to the mortality tables assumed for healthy retirees. Assumed termination rates were decreased to 3.00 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall. Assumed percentage of married female members was decreased from 65.00 percent to 60.00 percent. Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females. The assumed percentage of female members electing joint and survivor annuities was increased. The assumed postretirement benefit increase rate was changed from 1.00 percent for all years to 1.00 percent per year through 2064 and 2.50 percent thereafter. The single discount rate was changed from 5.60 percent per annum to 7.50 percent per annum.

2016 - No changes noted

2015 - The post-retirement benefit increase to be paid after attainment of the 90 percent funding threshold was changed, from inflation up to 2.5 percent, to a fixed rate of 2.5 percent.

Notes to Schedule:

Benefit changes. There have been no plan changes since the January 1, 2018 valuation.

Changes of assumptions. In 2015, amounts reported as changes of assumptions resulted primarily from adjustments to expected retirement ages of general employees. In 2018, amounts reported as changes of assumptions resulted from an adjustment to the 20-year municipal bond rate. The assumed rate of investment was changed from 5.00 percent to 6.00 percent. The base mortality table for healthy and disabled annuitants was changed from the RP-2000 fully generational table to the RF-2014 fully generational table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2017.

Note: Schedule is intended to show 10-year trend. Additional years will be reported as they become available.

CITY OF WHITE BEAR LAKE, MINNESOTA
Notes to Required Supplemental Information
December 31, 2020

1. Budgetary Reporting

A. The Schedule

The budgetary comparison schedule presents the comparison of the original and legally amended budget with actual amounts on a departmental level for the General and Special Revenue funds. The departmental level budgets are adopted on a basis consistent with generally accepted accounting principles. The fund balance reports revenue in the period in which they become measurable and available.

B. Summary of Significant Budget Policies

The City Charter, Sections 5.03 through 5.09, sets forth the requirements that the City Manager must prepare and submit an annual budget to the City Council. The Council conducts informal budget discussions with the City Manager on an on-going basis. The Mayor, City Council, and citizens are asked to convey budget priorities to the City Manager prior to preparation of the proposed budget. The White Bear Lake City Charter requires the City Manager to enforce the provisions of the budget upon adoption. Minnesota State Law requires that the preliminary budget and proposed tax levy be approved by the City Council prior to September 30 of each year. State statutes require the preliminary property tax levy be certified to the County Auditor by September 30. Once the City adopts the proposed tax levy, the final tax levy can be decreased, but not increased, over the certified proposed tax levy. The City Council is required to adopt the final tax levy and submit the levy to the County Auditor by December 28.

C. Budget Amendments

After the budget resolution has been adopted, the Council, under Section 5.09 of the City Charter, shall have no power to increase the amounts fixed in the budget resolution, by insertion of new items or otherwise, beyond the estimated revenues, unless actual receipts exceed the estimates and then not beyond the actual receipts. The Council may at any time, by resolution, reduce the sums appropriated for any purpose by the budget resolution. The Council may, by four-fifths majority vote, authorize the transfer of sums from unencumbered balances of appropriations in the budget resolution to other purposes, except from dedicated funds, and subject to the limitations of the City Charter.

D. Budgetary Compliance

There were no budgetary compliance violations for the fiscal year ending December 31, 2020.

STATISTICAL SECTION (UNAUDITED)

CITY OF WHITE BEAR LAKE
WHITE BEAR LAKE, MINNESOTA

FOR THE YEAR ENDED
DECEMBER 31, 2020

THIS PAGE IS LEFT
BLANK INTENTIONALLY

City of White Bear Lake, Minnesota

Statistical Section

This part of the City of White Bear Lake's comprehensive annual financial report presents detailed statistical information. The following five sections provide the reader with historical data that is intended to provide valuable trend information and insight into the City's financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt, and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

The schedules contain service and infrastructure data to help the reader understand how the City's financial report relates to the services the City provides and the activities it performs.

Source: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: Information obtained from Ramsey County and Washington County.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of White Bear Lake. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

	<u>16,305,382</u>	
Total debt applicable		<u>3,210,784</u>
Legal debt margin		<u><u>\$ 90,293,804</u></u>

The debt limit percentage of market value was established at 3.00% beginning in fiscal year 2011.

Note A:

M.S.A. Section 475.53 (Limit on Net Debt)

"Subdivision 1. Generally, except as otherwise provided in Sections 475.51 to 475.75 to municipality, except a school district or a city of the first class shall incur or be subject to a net debt in excess of 3.00% of the market value of taxable property in the municipality.

Note B:

M.S.A. Section 475.51 (Definitions) "Subdivision 4. Net Debt means the amount remaining after deducting from its gross debt the aggregate of the principal of the following":

1. Obligations issued for improvements which are payable wholly or partly from the proceeds of special assessments levied upon property specially benefited thereby, including those which are general obligations of the municipality issuing them, if the municipality is entitled to reimbursement in whole or in part from the proceeds of the special assessments.
2. Warrants or orders having no definite or fixed maturity.
3. Obligations payable wholly from the income from revenue-producing conveniences.
4. Obligations issued to create or maintain a permanent improvement revolving funds.
5. Obligations issued for the acquisition, and betterment of public water works systems and public lighting, heating or power systems and of any combinations thereof, or for any combination thereof, or for any other public convenience from which a revenue is or may be derived.
6. Amount of all money and the face value of all securities held as a sinking fund for the extinguishment of obligations other than those deductible under this subdivision.
7. All other obligations which under the provisions of the law authorizing their issuance are not to be included in computing the net debt of the municipality.
